The day after his mother's death in October 1977, the influential philosopher Roland Barthes began a diary of mourning. Taking notes on index cards as was his habit, he reflected on a new solitude, on the ebb and flow of sadness, and on modern society's dismissal of grief.

~~Mourning Diary by Roland Barthes - Goodreads~~
Roland Barthes' Mourning Diary is the most accurate, poignant written account of how grief is experienced. Barthes does not revert to cliche or overwrought metaphor--he does not attempt to apologize for the way he experiences mourning after his mother dies. Instead, these short fragments explore the process of living that one undergoes in the presence of absence that death most acutely is ...

~~Mourning Diary Quotes by Roland Barthes - Goodreads~~
In his diary, Barthes is open about his feelings. Often his entries are one-liners, but always are clearly expressed. It explains the feelings of a survivor moving through mourning, which is something I was grateful for, after having read so many books intended to serve as self-help models on how to overcome the feelings that come with mourning.

Mourning Diary, keenly translated by Richard Howard, is a set of two-hundred-plus intensities, each a sentence or two at most, written by Barthes over a two-year period following his mother’s demise. The compilation is Barthes’ last writing, and it is unclear whether this was an intentional book.
