A Sarong for Clio testifies to an ongoing intellectual dialogue between its ten contributors and Craig J. Reynolds, who inspired these essays. Conceived as a tribute to an innovative scholar, dedicated teacher, and generous colleague, it is this volume's ambition to make a concerted intervention on Thai historiography—and Thai studies more generally—by pursuing in new directions ideas that figure prominently in Reynolds's scholarship. The writings gathered here revolve around two prominent themes in Reynolds's scholarship: the nexus of historiography

Yves Bonnefoy, celebrated translator and critic, is widely considered the most important and influential French poet since World War II. Named to the Collège de France in 1981 to fill the chair left vacant by the death of Roland Barthes, Bonnefoy was the first poet honored in this way since Paul Valéry. Winner of many awards, including the Prix Goncourt in 1987 and the Hudson Review's Bennett Award in 1988, he is the author of six critically acclaimed books of poetry. Spanning four decades and drawing on all of Bonnefoy's major collections, this selection provides a comprehensive overview of and an ideal introduction to his work. The elegant translations, many of them new, are presented in this dual-language edition alongside

the original French. Several significant works appear here in English for the first time, among them, in its entirety, Bonnefoy's 1991 book of verse, *The Beginning and the End of the Snow*, the 1988 prose poem *Where the Arrow Falls*, and an important long poem from 1993, "Wind and Smoke." Together with poems from such classic volumes as "In the Lure of the Threshold", these new works shed light on the growth as well as the continuity of Bonnefoy's work. John Naughton's detailed introduction looks at the evolution of Bonnefoy's poetry from the 1953 publication of "On the Motion and Immobility of Douve", which immediately established his reputation as one of France's leading poets, through the 1993 publication of *The Wandering Life* and its centerpiece "Wind and Smoke." "This is a comprehensive selection that contains examples of work spanning [Bonnefoy's] full career of forty years, from the ground-breaking "Du Mouvement et de l'Immobilité de Douve" through the celebratory "Pierre Ecrite" to the magical winter landscapes of America's East Coast and an unsettling reworking of myth in the recent "La Vie Errante" . . . The translations, which are the work of a variety of hands, including Galway Kinnell, Emily Grosholz and Anthony Rudolf, nevertheless fit well together and all are sensitive to the register and subtleties of both languages, while the introductory essay by John Naughton expertly explains Bonnefoy's importance as a poet and the influences which have shaped him. This is definitely a volume worth having, for layman and French specialist alike."—Hilary Davies, *Times Literary Supplement* "Anyone not familiar with Bonnefoy's work will benefit from the background information and explanations given by John Naughton in his excellent introduction . . . The book as a whole provides an excellent introduction to Bonnefoy's poetry and to his concerns of a lifetime."—Don Rodgers, *Poetry Wales*

explores the intellectual tension in the social science in Austria and Germany in the late-nineteenth and early-twentieth centuries. It deals with how the emergence of the new school (Austrian School) changed the focus of social science in the German speaking world, and how it prepared the introduction of an evolutionary perspective in economics, politics, and sociology. Based on (mostly hitherto unknown) primary evidence, this development is lively described in a series of encounters and decisions by each social scientists. .

Now in its seventeenth edition, *Social Science: An Introduction to the Study of Society* approaches its study from a common-sense perspective, rather than a formalistic perspective more common in social science. Readers will see how seemingly diverse disciplines intermingle and connect to one another – anthropology and economics, for example. The goal of the book is to teach students critical thinking and problem-solving skills that will allow them to approach social issues in an objective and informed way. New to this edition are significant updates on: The election of Donald Trump and the emergence of related populist movements Trade policy and health care Issues involving migration and immigration Emerging developments in artificial intelligence Comparisons between cultural and biological evolution Examples, data, recommended readings, and internet questions
