Vsa Warning Light On Problems of the 2007 Honda CR-V

This VSA light indicates that the system is currently activated, which means that it is actively helping keep your CR-V safe. If this light stays on at all times, it probably means that the VSA system has been switched off. This is easy enough to do, there is a button that says VSA on it. Just press it and see if this light turns off. If it comes on WITH the VSA light, it indicates there is a problem. CR-V VSA Light on Causes

Honda CR-V: VSA Light Diagnosis | Drivetrain Resource

Every modern Honda has vehicle stability assist, also known as VSA. ... Real-World Maintenance and Repair Costs of a 2007 Honda Fit Sport - And What We Learned ... Two Things The Euro-Spec Honda ...

The problem that you have is a misfire in the engine that is causing the bucking at 3500 rpm. That misfire is what is triggering the VSA light. The Vehicle Stability Assist is a system the provides...

Anyone having problems with 2007 Honda CR-V? | Yahoo Answers

Lately, my Honda's VSA system seems to keep turning off while I'm driving; The VSA Activation Indicator, VSA System Indicator, and Malfunction Indicator Lamp lights all turn on. When the car attempts to shift at high RPMs, about 2500-3000, it abruptly shifts or shakes unless if I ease off the gas, making shifting difficult.

2005 Honda CR-V: Oil or VSA problem honda 2005 cr-v l4-2.4l

Check Engine Light comes on sometimes and it is accompanied with VSA light and some kind of triangle warning signal. When this happens on the road the acceleration is not as good as it is before VSA light comes on. I have to stop and restart car. In this case VSA light goes off and Check Engine light stays ON, but car drives as normal.

2007 Honda Pilot Check Engine Light and VSA light on and ...

Honda Accord 2.2 Diesel - Honda VSA Modulator Failure and other things..... I was quite happy like a lot of drivers running around in my Honda Accord Diesel (05 plate and 95,000 miles) with my VSA light on for the last 18 months knowing it won't effect the MOT and not paying Honda the \u00a31,600 they wanted for this crappy part. I new it wouldn't last.
