~~A Dynamic Model of Multilingualism: Perspectives of Change~~ ...

Introduction. Majority of the population is multilingual. DMM provides a new model and new concepts. DMM is a psycholinguistic model. Treats language change on an individual level. Sees speaker as an intricate psycholinguistic system. Multilingualism and DMM. Multilingualism: the command and/or use of two or more languages by an individual speaker.

~~A Dynamic Model of Multilingualism~~

A Dynamic Model of Multilingualism is an innovative, challenging and stimulating book about multilingual development... It will provide an invaluable conception and metaphor that can assist in reinterpreting research findings, recognising their limitations and placing them in relation to other variables and within the broad context of dynamic multilingualism.
