This abridged edition of DK's Prehistoric (2009) features updated information on hundreds of life forms, with a scattering of new entries - including the jellyfish Haoootia, and the early Cretaceous mammal Ambolestes. Artists' impressions of the living, breathing animals have also been updated according to the latest findings about colouring, feathers, and scales.

Dinosaurs and Prehistoric Life: The definitive visual ...

These plants with their scrambling leaves and massive drooping flowers were around when dinosaurs roamed the earth. In the Cretaceous period (142 -65 million years ago) the early flowers had arrived, with many pollinated by insects too [just like flowers today. The Aristolochia's smelly flowers attract flies, which get trapped inside and covered in pollen before the flower lets them out.
