Study Guides for Massage Therapists | AMTA

COVID-19 made massage therapists very aware of the need for increased sanitation protocols. With the lack of a gold standard for massage therapists, we can turn to entities like the CDC to learn how to create a therapy space that is safe and sanitary. While some practices remain closed, some massage businesses are open now.

Depending on preference, your massage therapist may use oil or lotion to reduce friction on your skin. Tell your massage therapist if you might be allergic to any ingredients. A massage session may last from 10 to 90 minutes, depending on the type of massage and how much time you have.

Massage: Get in touch with its many benefits - Mayo Clinic

3 New OSHA COVID-19 Workplace Guidelines that Massage Therapists Need to Understand. OSHA has updated its regulations to include airborne pathogens. With this change, the way business owners, employers and massage therapists work will also need to change. Before COVID-19, the Occupational Safety and Health Administration (OSHA)'s regulations on bloodborne pathogens impacted massage therapists only when someone had bled or vomited in the office.

3 New OSHA COVID-19 Workplace Guidelines for Massage ...

A certification or training in myofascial release broadens a massage therapist's opportunities to practice in different settings and also work collaboratively in them. A massage therapist can create a niche in their private practice that includes pain relief, sports performance, post-op or rehabilitation. The possibilities are wide open.
