I bought "A World History of Architecture" so that I could better understand not only the beauty of these buildings, but their place in architectural history. "A World History" exceeded my expectations. Its sixteen chapters describe the characteristics and innovations of architecture's major movements. You will learn what makes Gothic architecture Gothic, and Romanesque Romanesque. "A World History" also explains how these styles developed from each other.

The history of architecture is about as long as the history of humanity itself, and probably just as complex. The exact origin of architecture could be said to date to the Neolithic period, around 10 000 BC, or simply when people stopped living in caves and started handling the way they want their houses to look and feel like.

resource to help you understand the built environment in this part of the world. The book combines the latest scholarship about the indigenous past with an environmental history approach covering issues of climate, geology, and biology, so that you'll see the relationship between urban and rural in a new, more inclusive way. Author Clare Cardinal-Pett tells the story chronologically, from the earliest-known human migrations into the Americas to the 1930s to reveal information and insights that weave across time and place so that you can develop a complex and nuanced understanding of human-made landscape forms, patterns of urbanization, and associated building typologies. Each chapter addresses developments throughout the hemisphere and includes information from various disciplines, original artwork, and historical photographs of everyday life, which - along with numerous maps,

Wood has unique qualities, yet is undervalued or ignored in histories of architecture. However, leading designers around the world are increasingly drawn to it to satisfy social and environmental needs. Will Pryce, the most admired architectural photographer in Britain, has travelled the world seeking both famous and obscure buildings in wood. Intensely dramatic but not over-dramatized, technically flawless, but not merely documentary, his photographs convey all the excitement of encountering these amazing structures first hand. In the substantial text he shows how the wooden heritage of Japan grew from its Buddhist history; how Russia's carpenters determined its iconic domes; how Norway's
