Shocking and controversial when it was first published in 1939, Steinbeck's Pulitzer Prize-winning epic remains his undisputed masterpiece. Set against the background of dust bowl Oklahoma and Californian migrant life, it tells of the Joad family, who, like thousands of others, are forced to travel West in search of the promised land. Their story is one of false hopes, thwarted desires and broken dreams, yet out of their suffering Steinbeck created a drama that is intensely human yet majestic in its scale and moral vision; an eloquent tribute to the endurance and dignity of the human spirit.

Widely acknowledged as a contemporary classic that has introduced thousands of readers to American literature, From Puritanism to Postmodernism: A History of American Literature brilliantly charts the fascinating story of American literature from the Puritan legacy to the advent of postmodernism. From realism and romanticism to modernism and postmodernism it examines and reflects on the work of a rich panoply of writers, including Poe, Melville, Fitzgerald, Pound, Wallace Stevens, Gwendolyn Brooks and Thomas Pynchon. Characterised throughout by a vibrant and engaging style it is a superb introduction to American literature, placing it thoughtfully in its rich social, ideological and historical context. A tour de force of both literary and historical writing, this Routledge Classics edition includes a new preface by co-author Richard Ruland, a new foreword by Linda Wagner-Martin and a fascinating interview with Richard Ruland, in which he reflects on the nature of American fiction and his collaboration with Malcolm Bradbury. It is published here for the first time.

Coral and Brass is the biography of General Holland McTyreire "Howlin' Mad" Smith, known as the "father" of modern U.S. amphibious warfare. His book is a riveting first-hand account of key battles fought in the Pacific between the U.S. Army and Canadian troops against the Japanese, including assaults on the Gilbert Islands, the Marshall Islands, the island of Saipan, Tinian in the Marianas and Iwo Jimo.

Between March and October 2011, a coalition of North Atlantic Treaty Organization (NATO) member states and several partner nations waged a war against Muammar Qaddafi's Libyan regime that stemmed and then reversed the tide of Libya's civil war, preventing Qaddafi from crushing the nascent rebel movement seeking to overthrow his dictatorship and going on to enable opposition forces to prevail. The central element of this intervention was a relatively small multinational force's air campaign operating from NATO bases in several countries, as well as from a handful of aircraft carriers and amphibious ships in the Mediterranean Sea. The study details each country's contribution to that air campaign, examining such issues as the limits of airpower and coordination among nations. It also explores whether the Libyan experience offers a potential model for the future.

The National Book Award Finalist and New York Times bestseller that became a guide and balm for a country struggling to understand the election of Donald Trump "A generous but disconcerting look at the Tea Party. . . . This is a smart, respectful and compelling book." —Jason DeParle, The New York Times Book Review When Donald Trump won the 2016 presidential election, a bewildered nation turned to Strangers in Their Own Land to understand what Trump voters were thinking when they cast their ballots. Arlie Hochschild, one of the most influential sociologists of her generation, had spent the preceding five years immersed in the community around Lake Charles, Louisiana, a Tea Party stronghold. As Jedediah Purdy put it in the New Republic, "Hochschild is fascinated by how people make sense of their lives. . . . [Her] attentive, detailed portraits . . . reveal a gulf between Hochchild's 'strangers in their own land' and a new elite." Already a favorite common read book in communities and on campuses across the country and called "humble and important" by David Brooks and "masterly" by Atul Gawande, Hochschild's book has been lauded by Noam Chomsky, New Orleans mayor Mitch Landrieu, and countless others. The paperback edition features a new afterword by the author reflecting on the election of Donald Trump and the other events that have unfolded both in Louisiana and around the country since the hardcover edition was published, and also includes a readers' group guide at the back of the book.

Fort Sill, located in the heart of the old Kiowa-Comanche Indian country in southwestern Oklahoma, is known to a modern generation as the Field Artillery School of the United States Army. To students of American frontier history, it is known as the focal point of one of the most interesting, dramatic, and sustained series of conflicts in the records of western warfare. From 1833 until 1875, in a theater of action extending from Kansas to Mexico, the strife was almost uninterrupted. The U.S. Army, militia of Kansas, Texas Rangers, and white pioneers and traders on the one hand were arrayed against the fierce and heroic bands of the Kiowas, Comanches, Cheyennes, Arapahoes, and Kiowa-Apaches on the other. The savage skirmishes with the southwestern Indians before the Civil War provided many army officers with a kind of training which was indispensable to them in that later, prolonged conflict. When hostilities ceased, men like Sherman, Sheridan, Dodge, Custer, and Grierson again resumed the harsh field of guerrilla warfare against their Indian foes, tough, hard, lusty, fighters, among whom the peace pipe had ceased to have more than a ceremonial significance. With the inauguration of the so-called Quaker Peace Policy during President Grant's first administration, the hands of the army were tied. The Fort Sill reservation became a place of refuge for the marauding hands which went forth unmolested to train in Texas, Oklahoma, and Mexico. The toll in human life reached such proportions that the government finally turned the southwestern Indians over to the army for discipline, and a permanent settlement of the bands was achieved by 1875. From extensive research, conversations with both Indian and white eye witnesses, and his familiarity with Indian life and army affairs, Captain Nye has written an unforgettable account of these stirring time. The delineation of character and the reconstruction of colorful scenes, so often absent in historical writing, are to be found here in abundance. His Indians are made to live again: his scenes of post life could have been written only by an army man.

With their powerful blend of political and aesthetic concerns, Edward W. Said's writings have transformed the field of literary studies. This long-awaited collection of literary and cultural essays offers evidence of how much the fully engaged critical mind can contribute to the reservoir of value, thought, and action essential to our lives and culture.
