~~Ages in Chaos is a book by the controversial writer Immanuel Velikovsky, first published by Doubleday in 1952, which put forward a major revision of the history of the Ancient Near East, claiming that the histories of Ancient Egypt and Ancient Israel are five centuries out of step. He followed this with a number of other works where he attempted to complete his reconstruction of ancient history, collectively known as the Ages in Chaos series. Velikovsky's work has been harshly criticised, includ~~

"Peoples of the Sea" is, in some sense, the culmination of the series "Ages in Chaos." In this volume the erroneous time shift of classical history reaches its maximum span - 800 years! With carefully documented evidence and indisputable arguments, Velikovsky places Ramses III firmly into the 4th century B.C. thereby solving, once and for all, numerous conundrums that historians had been confronted with in the past. He unveils the surprising identity of the so-called "Peoples of the Sea," clarifies the role of the Philistines and solves the enigma of the Dynasty of Priests. This volume leads Velikovsky's revised chronology up to the time of Alexander where it links-up with the records of classical chronology. In an extensive supplement Velikovsky delves into the fundamental question of how such a dramatic shift in chronology could have come about. Analyzing the main pillars of Egyptian chronology, he points out where the most dramatic mistakes were made and addresses the misunderstanding underlying the "astronomical chronology." In a further supplement he discusses the very interesting conclusions that can be drawn from radiocarbon testing on Egyptian (archeological) finds.

"Peoples of the Sea" is the culmination of the series "Ages in Chaos." Here the erroneous time shift of classical history reaches its maximum span - 800 years! With carefully documented evidence Velikovsky unveils the identity of the "Peoples of the Sea," clarifies the role of the Philistines and solves the enigma of the Dynasty of Priests.

Inspired by Velikovsky's "Ages in Chaos," Sweeney embarks on a 3-part work to complete the reconstruction of ancient history; he calls for a much more radical shortening of ancient chronology and asserts that Velikovsky placed too much reliance on the Bible as a chronological measuring rod.

"In 1177 B.C., marauding groups known only as the "Sea Peoples" invaded Egypt. The pharaoh's army and navy managed to defeat them, but the victory so weakened Egypt that it soon slid into decline, as did most of the surrounding civilizations. After centuries of brilliance, the civilized world of the Bronze Age came to an abrupt and cataclysmic end. Kingdoms fell like dominoes over the course of just a few decades. No more Minoans or Mycenaeans. No more Trojans, Hittites, or Babylonians. The thriving economy and cultures of the late second millennium B.C., which had stretched from Greece to Egypt and Mesopotamia, suddenly ceased to exist, along with writing systems, technology, and monumental architecture. But the Sea Peoples alone could not have caused such widespread breakdown. How did it happen? In this major new account of the causes of this "First Dark Ages," Eric Cline tells the gripping story of how the end was brought about by multiple interconnected failures, ranging from invasion and revolt to earthquakes, drought, and the cutting of international trade routes. Bringing to life the vibrant multicultural world of these great civilizations, he draws a sweeping panorama of the empires and globalized peoples of the Late Bronze Age and shows that it was their very interdependence that hastened their dramatic collapse and ushered in a dark age that lasted centuries. A compelling combination of narrative and the latest scholarship, 1177 B.C. sheds new light on the complex ties that gave rise to, and ultimately destroyed, the flourishing civilizations of the Late Bronze Age-and that set the stage for the emergence of classical Greece"--

With utmost precision, Velikovsky takes readers on a detailed and highly interesting journey through corrected history about the entire Near East.

On Caprona, a continent lost from the map of Earth, where Time had stopped and all the primeval creatures of long-gone ages still prowled, Bowen Tyler was lost. To find Tyler, Thomas Billings travelled across the world to Caprona, where even stranger mysteries awaited him, and a barbaric civilization hid, trapped between the impassable jungle on one side and an unknown menace on the other...
