Anderton's bestselling Economics texts -- updated for the new GCE specifications Num Pages ...

This work maintains the approach of the US text, Principles of Economics by Case and Fair, but with the main focus on Europe. This is reflected in the use of the open economy approach, the use of the Euro as the standard currency, as well as providing numerous European examples and applications. Maths Boxes enable the lecturer to decide on the amount of calculus they wish to include. End-of-chapter problems with selected answers at the end of the book allow students to assess their progress.

This student book is accompanied by an ActiveBook (a digital version of the student book) and covers both the AS and A level courses for the Edexcel business specification from 2015. The student book contains clear signposted links and support for quantitative skills, synoptical, evaluative, and analytical skills to help you develop your conceptual understanding of each topic.

Edexcel's own resources for the new Edexcel GCE Economics specification

Divided into short units which allow for ease of use, this textbook covers the latest economic theories and applied economics. Hundreds of questions and activities are included to ensure students develop the understanding and skills for examination success.

Develop your students' knowledge of economic themes 1 and 2 of the Edexcel specification and put theory into context, with focused case studies and practice activities.
