A pilot study does not mean a study which is too small to produce a clear answer to the question. Funding organisations are unlikely to fund such studies, and rightly so. They are poor research, conducted for the benefit of the researcher rather than society at large (which pays for the grant). Not all small studies are unjustified.

First published in 1903 when a large number of books promoting a "Second Blessing" were being published, this little book is just as relevant today in view of the huge number of books promoting charismatic practices based on these earlier errors. It deals with all aspects of the work of the Holy Spirit with warmth and a careful exegesis of all the relevant passages of Scripture. William Biederwolf (1867-1939) served as a Presbyterian pastor and army chaplain, but for the majority of his ministry was an evangelist.

Are you looking for a genuine introduction to the linguistics of English that provides a broad overview of the subject that sustains students' interest and avoids excessive detail? *Introducing English Linguistics* accomplishes this goal in two ways. First, it takes a top-down approach to language, beginning with the largest unit of linguistic structure, the text, and working its way down through successively smaller structures (sentences, words, and finally speech sounds). The advantage of presenting language this way is that students are first given the larger picture - they study language in context - and then see how the smaller pieces of language are a consequence of the larger goals of linguistic communication. Second, the book does not contain invented examples, as is the case with most comparable texts, but instead takes its sample materials from the major computerised databases of spoken and written English, giving students a more realistic view of language.

Each of the four levels comprises about 80 hours of class work, with additional time for the self-study work. The Teacher's Book contains all the pages from the Classroom Book, with interleaved teaching notes including optional activities to cater for different abilities. There is a video to accompany the Beginner, Pre-intermediate and Intermediate levels. Each video contains eight stimulating and entertaining short programmes, as well as a booklet of photocopiable activities. Free test material is available in booklet and web format for Beginner and Pre-intermediate levels.
