Finalist for the 2015 Helen Bernstein Book Award for Excellence in Journalism Longlisted for the Lionel Gelber Award for the Best Non-Fiction book in the world on Foreign Affairs An Economist Book of the Year, 2014 A New York Times Book Review Editor's Choice "One of the best analyses of the impact of Tiananmen throughout China in the years since 1989." --The New York Times Book Review On June 4, 1989, People's Liberation Army soldiers opened fire on unarmed civilians in Beijing, killing untold hundreds of people. A quarter-century later, this defining event remains buried in China's modern history, successfully expunged from collective memory. In The People's Republic of Amnesia, Louisa Lim charts how the events of June 4th changed China, and how China changed the events of June 4th by rewriting its own history. Lim reveals new details about those fateful days, including how one of the country's most senior politicians lost a family member to an army bullet, as well as the inside story of the young soldiers sent to clear Tiananmen Square. She also introduces us to individuals whose lives were transformed by the events of Tiananmen Square, such as a founder of the Tiananmen Mothers, whose son was shot by martial law troops; and one of the most important government officials in the country, who post-Tiananmen became one of its most prominent dissidents. And she examines how June 4th shaped China's national identity, fostering a generation of young nationalists, who know little and care less about 1989. For the first time, Lim uncovers the details of a brutal crackdown in a second Chinese city that until now has been a near-perfect case study in the state's ability to rewrite history, excising the most painful episodes. By tracking down eyewitnesses, discovering US diplomatic cables, and combing through official Chinese records, Lim offers the first account of a story that has remained untold for a quarter of a century. The People's Republic of Amnesia is an original, powerfully gripping, and ultimately unforgettable book about a national tragedy and an unhealed wound.

This second edition of Hong Kong Media Law is an authoritative guide to the laws most important to reporters, editors, news executives and other professionals working for the print, online and broadcast media—and the lawyers who advise them. Topics include defamation, court reporting, privacy, access to information, copyright, newsgathering and reporting restrictions. The book also examines legal hurdles Hong Kong and international journalists face while reporting on the mainland of the People ' s Republic of China. Also featured are chapter FAQs and checklists, a glossary of legal terms, a research guide and key legislation texts.

"You can't truly understand the country you're living in without reading Williamson." —Rich Lowry, National Review "His observations on American culture, history, and politics capture the moment we're in—and where we are going." —Dana Perino, Fox News An Appalachian economy that uses cases of Pepsi as money. Life in a homeless camp in Austin. A young woman whose résumé reads, " Topless Chick, Uncredited. " Remorselessly unsentimental, Kevin D. Williamson is a chronicler of American underclass dysfunction unlike any other. From the hollows of Eastern Kentucky to the porn business in Las Vegas, from the casinos of Atlantic City to the heroin rehabs of New Orleans, he depicts an often brutal reality that does not fit nicely into any political narrative or comfort any partisan. Coming from the world he writes about, Williamson understands it in a way that most commentators on American politics and culture simply can ' t. In these sometimes savage and often hilarious essays, he takes readers on a wild tour of the wreckage of the American republic—the " white minstrel show " of right-wing grievance politics, progressive politicians addicted to gambling revenue, the culture of passive victimhood, and the reality of permanent poverty. Unsparring yet never unsympathetic, Big White Ghetto provides essential insight into an enormous but forgotten segment of American society.

How can one of the world's most free-wheeling cities transition from a vibrant global center of culture and finance into a subject of authoritarian control?As Beijing's anxious interference has grown, the "one country, two systems" model China promised Hong Kong has slowly drained away in the yearsince the 1997 handover. As "one country" seemed set to gobble up "two systems," the people of Hong Kong riveted the world's attention in 2019 by defiantly demanding the autonomy, rule of law and basic freedoms they were promised. In 2020, the new National Security Law imposed by Beijing aimed to snuff out such resistance. Will the Hong Kong so deeply held in the people's identity and the world's imagination be lost? Professor Michael Davis, who has taught human rights and constitutional law in this city for over three decades, and has been one of its closest observers, takes us on this constitutional journey.

Over the last twenty years Hong Kong society has witnessed dramatic change, and nowhere is this better reflected than in the realm of media and communications. Across the fields of journalism, public relations and advertising, we can see the changing trends in terms of audience consumption and interaction. From technological developments to the shift in audience participation, the expectations and functions of these professions have been greatly altered. While many of these changes are occurring worldwide, within Hong Kong the processes of change have been further complicated by recent social and political events. Through a selection of essays by field experts, this volume explores the evolution of media itself as well as the complex causes underlying these developments. It identifies not only the difficulties and opportunities for media professionals today, but also the evolving role of the audience.

"Defying the Dragon tells a remarkable story of audacity: of how the people of Hong Kong challenged the PRC's authority, just as its president reached the height of his powers. Is Xi's China as unshakeable as it seems? What are its real interests in Hong Kong? Why are Beijing's time-honoured means of control no longer working there? And where does this leave Hongkongers themselves? Stephen Vines has lived in Hong Kong for over three decades. His book shrewdly unpacks the Hong Kong-China relationship and its wider significance--right up to the astonishing convergence of political turmoil and international crisis with Covid-19 and the 2020-21 crackdown. Vividly describing the uprising from street level, Vines explains how and why it unfolded, and its global repercussions. Now, the international community is reassessing relations with Beijing, just as Hong Kong's rebellion and China's handling of the pandemic have exposed the regime's weakness. In a crisis that has become existential all round, what lies ahead for Hong Kong, China and the world?" --Amazon.com.

The best country-by-country assessment of human rights. The human rights records of more than ninety countries and territories are put into perspective in Human Rights Watch's signature yearly report. Reflecting extensive investigative work undertaken by Human Rights Watch staff, in close partnership with domestic human rights activists, the annual World Report is an invaluable resource for journalists, diplomats, and citizens, and is a must-read for anyone interested in the fight to protect human rights in every corner of the globe.

Hong Kong has undergone sweeping transformation since its return to Chinese sovereignty in 1997. This is a multidisciplinary assessment of the new regime and key issues, challenges, crises and opportunities confronting the Hong Kong Special Administrative Region (HKSAR).

A terrible example of democratic movements: when a democratic movement itself is not democratic ... Hong Kong protest activists have been proactively contacting foreign governments and foreign press, telling them how righteous they are and why Hong Kong and Chinese governments are wrong. However, many of their own videos, speech, posts, statistics, Hong Kong newspapers, interviews with Hong Kong locals, etc... showing protest leaders ' misbehaviours, misleading actions and misconducts have never been presented to foreign governments or foreign press. Award-winning author, Selina Co, lived in both British colony Hong Kong and Hong Kong SAR of China for more than 10 years. She was graduated from a top university in Hong Kong and have Hong Kong citizenship (dual citizenship). Being currently in an overseas country, she found that foreigners are misunderstanding Hong Kong's situation. She would like to present facts about the protests, without interference by China or by protestors, and with no conflict of interest nor benefits from either side. Selina, native in Cantonese (Hong Kong spoken language) and fluent in English and Mandarin (Chinese language) has collected protest leaders ' videos, speeches, their own Facebook posts, statistics from reliable sources, interviewed a number of Hong Kong locals and translated Hong Kong newspapers on related topics and how the Hong Kong community actually think about the movement. Sources are presented to you whereas possible so that you can verify them. This book also tell you about Hong Kong history and Hong Kong society before protests 2019-2020, from Hong Kong society before the protests, how Hong Kong society was like after it returned to China and back to the time when Hong Kong was a British colony in the 1990s. Perhaps, you will find that this ' democratic movement ' is just a scam ... P.S. This book on Hong Kong Protest Leaders has nothing to do with cybercrime. Selina only happens to be a cybercrime detective, graduated from a university in Hong Kong.
