ASME A17.1 Safety Code for Elevators and Escalators , 2010

ASME A17.3-2017 is the current edition of this code. ASME A17.3-2017 serves as the basis for state and local jurisdictional authorities in adopting retroactive requirements for existing elevators and escalators with the ultimate goal of enhancing the safety of the general public. The code also acts as a standard reference for engineers, architects, insurance companies, manufacturers, building owners and managers, and others in providing a reasonable degree of safety for the general public.

ASME A17.3-2017: Safety Code for Existing Elevators and ...

A deviation from the ASME A17.1 code back in 1986—a response to numerous state and local jurisdictions developing their own code for existing elevator installations—ASME A17.3-2017 is intended to serve as the basis for state and local jurisdictional authorities in adopting retroactive requirements for existing elevators and escalators to enhance the safety of the general public.
