This book was first published in 2015. Since then, the Wi-Fi technology has evolved tremendously. This 2020 edition has important updates about security. Once hackers take control of your Wi-Fi router, they can attack connected devices such as phones, laptops, computers! Fortunately, it is easy to harden the defense of your home network. There are important steps you should take in order to protect your connected devices. An exhaustive catalog of the latest home security devices has been updated in this 2020 edition. Why would you spend a lot of money to have a home security system installed when you can do it yourself! A chapter about health risks has also been added. Are EMF radiations safe? We regularly post updates on our site <http://mediastimulus.com> such as security alerts and the latest in Wi-Fi technology. Your feedback is always welcome <http://mediastimulus.com/contact/>

This handy book serves as an introduction to the course of Statics and is intended for first year students taking a degree or diploma in engineering. Its main objective is to provide simple and friendly techniques necessary in the learning of Statics. Focus is placed on the application of basic algebra, trigonometry and elementary calculus to solve problems with extra emphasis on the Free Body Diagram. The following are some distinctive features of this book: Rigorous and detailed approach to solve resultant and equilibrium of particles. Emphasis on the techniques of drawing Free Body Diagrams. Thoroughly cover the moment equation to solve problems comprising statics of rigid bodies. Addressing various effective techniques to tackle analysis of structure problems. Friction topics, centroids and centre of gravities of two and three dimensional composite bodies are also included. It is hoped that this effort, which is an attempt to guide students through a learning experience in an effective manner, will be appreciated by both lecturers and students. Any comments and suggestions for improvement are welcome and InshaAllah will be incorporated in the next edition. The countless prior comments and suggestions made by our colleagues and students are acknowledged and highly appreciated.
