evaluation process and submittal requirements are listed below. Project Timeline and OTCR Evaluation Process. Submit construction documents with Borough office Submit OTCR2 application form and required documents

Indoor Automated Parking Garage Systems

An Arduino Automated Car Parking System that is too easy and too fun to make. When a car arrives it shows the number of empty slots (if available) and then opens the gate. if there is not any empty slot then the gate does not open. Amazing thing is that the whole project can just be POWERED using a POWER BANK!!
