British Red Cross first aid resources
First aid is generally performed by the layperson, with many people trained in providing basic levels of first aid, and others willing to do so from acquired knowledge. First aid skills not only give your students the ability to save a life – knowing how to respond in an emergency can also boost confidence, self esteem, teamwork and communication skills.

First Aid Lessons, Worksheets and Activities
Other program elements include: basic first aid intervention, basic adult cardiopulmonary resuscitation (CPR), and universal precautions for self-protection. Specific program elements include training specific to the type of injury: shock, bleeding, poisoning, burns, temperature extremes, musculoskeletal injuries, bites and stings, medical emergencies, and confined spaces.
