[This book constitutes the proceedings of the 22nd International Symposium on Graph Drawing, GD 2014, held in W ü rzburg, Germany, in September 2014. The 41 full papers presented in this volume were carefully reviewed and selected from 72 submissions. The back matter of the book also contains 2 page poster papers presented at the conference. The contributions are organized in topical sections named: planar subgraphs; simultaneous embeddings; applications; contact representations; k-planar graphs; crossing minimization; level drawings; theory; fixed edge directions; drawing under constraints; clustered planarity; and greedy graphs.](#)

[Pro Ecclesia is a quarterly journal of theology published by the Center for Catholic and Evangelical Theology. It seeks to give contemporary expression to the one apostolic faith and its classic traditions, working for and manifesting the church's unity by research, theological construction, and free exchange of opinion. Members of its advisory council represent communities committed to the authority of Holy Scripture, ecumenical dogmatic teaching and the structural continuity of the church, and are themselves dedicated to maintaining and invigorating these commitments. The journal publishes biblical, liturgical, historical and doctrinal articles that promote or illumine its purposes. Ways to subscribe: Call toll-free: 800-273-2223 Email: journals@rowman.com For back-issues, please contact journals@rowman.com Editorial inquiries: Joseph Mangina, joseph.mangina@utoronto.ca Submissions should be sent by email attachment in Microsoft Word, double-spaced, with identifying marks removed for the purposes of blind peer review. Book review inquiries: Chad Pecknold, pecknold@cua.edu Advertising inquiries: Charles Roth, Jr., charlie@spireads.com Subscription inquiries: journals@rowman.com ISSN: 1063-8512](#)

[Salient Features: Provided simple step by step explanations to motivate self study of the subject. Free hand sketching techniques are provided. Worksheets for free hand practice are provided. A new chapter on Computer Aided Design and Drawing \(CADD\) is added.](#)

[The Manual of Engineering Drawing has long been recognised as the student and practising engineer's guide to producing engineering drawings that comply with ISO and British Standards. The information in this book is equally applicable to any CAD application or manual drawing. The second edition is fully in line with the requirements of the new British Standard BS8888: 2002, and will help engineers, lecturers and students with the transition to the new standards. BS8888 is fully based on the relevant ISO standards, so this book is also ideal for an international readership. The comprehensive scope of this book encompasses topics including orthographic, isometric and oblique projections, electric and hydraulic diagrams, welding and adhesive symbols, and guidance on tolerancing. Written by a member of the ISO committee and a former college lecturer, the Manual of Engineering Drawing combines up-to-the-minute technical accuracy with clear, readable explanations and numerous diagrams. This approach makes this an ideal student text for vocational courses in engineering drawing and undergraduates studying engineering design / product design. Colin Simmons is a member of the BSI and ISO Draughting Committees and an Engineering Standards Consultant. He was formerly Standards Engineer at Lucas CAV. * Fully in line with the latest ISO Standards * A textbook and reference guide for students and engineers involved in design engineering and product design * Written by a former lecturer and a current member of the relevant standards committees](#)

["Collections: A Journal for Museum and Archives Professionals" is a multi-disciplinary peer-reviewed journal dedicated to the discussion of all aspects of handling, preserving, researching, and organizing collections. [Developed from celebrated Harvard statistics lectures, Introduction to Probability provides essential language and tools for understanding statistics, randomness, and uncertainty. The book explores a wide variety of applications and examples, ranging from coincidences and paradoxes to Google PageRank and Markov chain Monte Carlo \(MCMC\). Additional](#)

[The Journal of School Leadership is broadening the conversation about schools and leadership and is currently accepting manuscripts. We welcome manuscripts based on cutting-edge research from a wide variety of theoretical perspectives and methodological orientations. The editorial team is particularly interested in working with international authors, authors from traditionally marginalized populations, and in work that is relevant to practitioners around the world. Growing numbers of educators and professors look to the six bimonthly issues to: deal with problems directly related to contemporary school leadership practice teach courses on school leadership and policy use as a quality reference in writing articles about school leadership and improvement.](#)
