I was looking for cheaper textbooks. I found a really cheap book, but it is the instructor's edition. It is about 3/4 the price of the bookstore price. I really need to purchase the book at a price like this. Would it matter if I bought it for my college psychology class? Do you think the instructor would allow it or even care?

Ok well I bought an economics textbook from amazon, when i recieved it I removed some of the "used book" stickers and it revealed a box that said in was an instructor's sample copy and not for sale. I would like to resell it after I'm done with it. Would that be illegal? I'm thinking no because you can't tell people what to do with something that you had provided them with for free.
