Niketas or Nicetas Choniates (Greek: Νικήτας Χωνιάτης; c. 1155 – 1217), whose actual surname was Akominatos (Ἀκομινάτος), was a Greek Byzantine government official and historian – like his brother Michael Akominatos, whom he accompanied to Constantinople from their birthplace Chonae (from which came his nickname, "Choniates" meaning "person from Chonae"). Nicetas wrote a history of the Eastern Roman Empire from 1118 to 1207.

~~Niketas Choniates~~

0 City of Byzantium is the first English translation of a history which chronicles the period of Byzantine history from 1118 to 1207. The historian Niketas Choniates provides an eye-witness account of the inexorable events that led to the destruction of the longest lived Christian empire in history, and to the ultimate catastrophe of the fall of Constantinople in 1204 to the Fourth Crusade.

One of the most important accounts of the Middle Ages, the history of Niketas Choniates describes the Byzantine Empire from 1118 to 1207. Niketas provides an eyewitness account of the sack of Constantinople by the Fourth Crusade.

In 1039 Byzantium was the most powerful empire in Europe and the Near East. By 1079 it was a politically unstable state half the size, menaced by enemies on all sides. The History of Michael Attaleiates is our main source for this astonishing reversal. This translation, based on the most recent critical edition, includes notes, maps, and glossary.

The third edition of Reading the Middle Ages retains the strengths of previous editions and adds significant new materials, especially on the Byzantine and Islamic worlds and the Mediterranean region. This volume spans the period c.900 to c.1500.

James Crawford uncovers the biographies of 20 of the world’s most fascinating lost and ruined buildings, from the dawn of civilization to the cyber era. The lives of these iconic structures are packed with drama and intrigue, featuring war and religion, politics and art, love and betrayal, catastrophe and hope.

In Faces of Charisma: Image, Text, Object in Byzantium and the Medieval West, a multi-disciplinary group of scholars advances the theory that charisma may be a quality of art as well as of person.

The Fourth Crusade (1202-1204) comprised French knights and Venetian sailors; they set out to capture the Holy Land but ended up sacking Constantinople, the Byzantine capital. Robert of Clari, an obscure knight from Picardy, provides an extraordinary account of the trials, travails, and decidedly mixed triumphs of the Fourth Crusade. Told from the perspective of an ordinary soldier, The Conquest of Constantinople offers a rare and colorful firsthand description of the crusaders' various experiences, including the hardships they endured and the battles they fought.

Reading the Middle Ages is well-known for providing thematic and geographical diversity, clear and informative introductions, and close integration with A Short History of the Middle Ages.

This volume presents English translations of seven major bodies of Latin sources for the Fourth Crusade (1202-1204). Combined, the different perspectives of these sources deepen our understanding of this complex and controversial moment in Western-Byzantine relations.
