The flash guide number (GN) is a useful indicator of the power of a speedlite. In general the larger the GN number the more powerful the flash but this isn ' t always the case as in order to compare two speedlites the parameters have to be the same (i.e. full power, ISO ISO and the same focal length, 35mm is used as the standard) The mathematical formula used to calculate the Guide Number (GN) is given as:

Flash Guide Numbers - Speedlite Review
