Cassandra: The Definitive Guide - 3rd Edition | O'Reilly In the third edition of this popular book, authors Eben Hewitt and Jeff Carpenter reveal that true scalability isn't just a pipe dream anymore — it can be your organizational reality with Apache Cassandra™.

Cassandra: The Definitive Guide - 3rd Edition | O'Reilly ...

If we were in 2010 then I would be here singing the praises of Cassandra: The Definitive Guide. Unfortunately, five years have passed since it has hit the shelves and while the book still provides some interesting insights about Cassandra, it definitely suffers its age. At the time of printing, version 0.7 was about to get released.

Cassandra is one of the new No-SQL databases that are all the fashion. The first part of this book is about the issue of whether or not it really is a fashion. Chapter 1 is called "Introducing Cassandra" but it is really a discussion of database theory and SQL versus other approaches.

Cassandra: The Definitive Guide - I Programmer

I am so excited to be writing the foreword for the new edition of Cassandra: The Definitive Guide. Why? Because there is a new edition! When the original version of this book was written, Apache Cassandra was a brand new project. Over the years, so much has changed that users from that time would barely recognize the database today.
