This collection explores the complex interrelationships between the Soviet-American struggle for global preeminence and the rise of the Third World. Featuring original essays by twelve leading scholars, it examines the influence of Third World actors on the course of the Cold War.

Each unit includes guided reading, vocabulary building, skillbuilder practice, geography applications, primary sources, literature selections, reteaching activities, enrichment activities for gifted and talented students, history workshop resources and answer key.

Published by OpenStax College, U.S. History covers the breadth of the chronological history of the United States and also provides the necessary depth to ensure the course is manageable for instructors and students alike. U.S. History is designed to meet the scope and sequence requirements of most courses. The authors introduce key forces and major developments that together form the American experience, with particular attention paid to considering issues of race, class and gender. The text provides a balanced approach to U.S. history, considering the people, events and ideas that have shaped the United States from both the top down (politics, economics, diplomacy) and bottom up (eyewitness accounts, lived experience).

U.S. History by OpenStax (Print Version, Paperback, B&W, Volume 1 & 2) This is the grayscale (black and white) paperback edition, with a donation made to OpenStax from every new copy sold. Its list price is lower from the use of the latest in printing technology. U.S. History is designed to meet the scope and sequence requirements of most introductory courses. The 32 chapters provides a balanced approach to U.S. history, considering the people, events, and ideas that have shaped the United States from both the top down (politics, economics, diplomacy) and bottom up (eyewitness accounts, lived experience). U.S. History covers key forces that form the American experience, with particular attention to issues of race, class, and gender. A DRAMATIC AND REVEALING ACCOUNT, FROM INSIDE THE GOVERNMENT, OF THE MOMENTOUS DAYS IN WHICH AMERICA ASSUMED THE RESPONSIBILITY OF WORLD LEADERSHIP. First published in 1955, Joseph M. Jones' memoirs *The Fifteen Weeks* chronicle his role in the development of the Truman Doctrine and the Marshall Plan. "The fifteen weeks which form the title and subject of this book comprise the period in 1947 when the United States stepped out irrevocably and wholeheartedly as leader upon the world stage...." "The greatness of a nation, like the greatness of an individual, is in the last analysis a mystery. We do not know why at one time immense exertions and far-reaching vision are more prevalent than at others. Yet to look within, to account for the obvious factors in the situation is highly useful. That function is performed in a book which for readability and for responsible narration would be hard to surpass." —August Heckscher in the *New York Herald Tribune*.

Sugar chains (glycans) are often attached to proteins and lipids and have multiple roles in the organization and function of all organisms. "Essentials of Glycobiology" describes their biogenesis and function and offers a useful gateway to the understanding of glycans.

Discover how history is composed of the captivating stories of interesting people with Hansen/Curtis' *VOYAGES IN WORLD HISTORY*, 4E. Every chapter in this updated edition centers on the story of a different historic traveler while reinforcing a central theme -- the constant movement of people, goods and ideas throughout the world. The fascinating voyages of merchants, poets, rulers, explorers, soldiers, missionaries or scholars provide the framework for each chapter. New discussion questions and features prompt you to carefully consider and debate what you are reading. New inserts and special features demonstrate how information connects across chapters, societies and time periods. You learn about people, places and events that are crucial to understanding the global context of world history. This edition is available as a complete volume or split into VOLUME 1: TO 1600 and VOLUME 2: SINCE 1500. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Noted teachers and scholars William J. Duiker and Jackson J. Spielvogel present a balanced, highly readable overview of world history that explores common challenges and experiences of the human past and identifies key patterns over time. Thorough coverage of political, economic, social, religious, intellectual, cultural, and military history is integrated into a chronological framework to help students gain an appreciation and understanding of the distinctive character and development of individual cultures in society. This approach, with organization around seven major themes (Science and Technology, Art and Ideas, Family and Society, Politics and Government, Earth and the Environment, Religion and Philosophy, and Interaction and Exchange), helps students link events together in a broad comparative and global framework, thereby placing the contemporary world in a more meaningful historical context. Available in the following options: *WORLD HISTORY*, Eighth Edition (Chapters 1—30); Volume I: To 1800 (Chapters 1—18); Volume II: Since 1500 (Chapters 14—30). Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

This comprehensive study of China's Cold War experience reveals the crucial role Beijing played in shaping the orientation of the global Cold War and the confrontation between the United States and the Soviet Union. The success of China's Communist revolution in 1949 set the stage, Chen says. The Korean War, the Taiwan Strait crises, and the Vietnam War--all of which involved China as a central actor--represented the only major "hot" conflicts during the Cold War period, making East Asia the main battlefield of the Cold War, while creating conditions to prevent the two superpowers from engaging in a direct military showdown. Beijing's split with Moscow and rapprochement with Washington fundamentally transformed the international balance of power, argues Chen, eventually leading to the end of the Cold War with the collapse of the Soviet Empire and the decline of international communism. Based on sources that include recently declassified Chinese documents, the book offers pathbreaking insights into the course and outcome of the Cold War.
