world geography and cultures textbook pdf chapter 3. East and South East Asia are merged into one chapter, they should be separate. The clear and conscience writing style of the book proves attractive to instructors and students who can easily open to any chapter and clearly understand the approach, theoretical foundations, and regional diversity. Finlayson ` s texts move away from that traditional approach to focus on important themes to geography and the regions at hand.

World Regional Geography. 3.4 End-of-Chapter Material Chapter Summary. Russia is a large country that crosses the boundary between Europe and Asia. It has abundant natural resources, continental and arctic climates, mountains, plains, and massive river systems.

3.4 End-of-Chapter Material – World Regional Geography
While the first chapter does cover in a single chapter the basic concepts of geography that often take 2-3 chapters in other more comprehensive texts, the coverage is certainly adequate and gives a good foundation off of which to build lectures. The book is laid out in an easy to follow fashion. Text provides a useful glossary.
