As I have started to notice a few people asking about doing a engine swap into a ED/EF I've decided to make a guide for the swap. This is a basic guide to a B-series engine conversion into a 1988-1991 Honda Civic ED. This is not meant to be a how to guide, just some general information on what to look out for, and what you will be getting yourself into. To start off I will try to explain a few things about why I chose an ED for my track project.

THE ULTIMATE HONDA ENGINE SWAP GUIDE - Angelfire

I have a 99 Civic Si (Canadian version), a 5 speed mated to a D16 engine. I talk to a local Honda tuner in my area about engine swaps. I asked about dropping a K24A2, but he said to go with a B18C because it 's a straight drop and everything will work 100%. I really want the K24A2 for the torque.

Honda K-Series (K20, K24) Swap Guide Part 1 | Speed Academy

In car tuning culture, an engine swap is the process of removing a car's original engine and replacing it with another. This may be a like-for-like replacement, or to install a non-factory specification engine. Typically

Online Library Civic Engine Swap Guide

an engine swap is performed for performance, swapping-in a more powerful engine; however, an engine swap may also be performed for maintenance, where older engines may have a shortage of spare parts, and so a modern replacement may be more easily and cheaply maintained.

If you look for the required parts for a Civic EM2 K-Swap project, the throttle cable is oftentimes mentioned as a component that needs to get replaced since it's too long to get properly mounted to the K20 throttle body. Getting your hands on an RSX or Civic EG cable which would provide you with the right length doesn't cost a fortune.
