Rev. ed. of: Cost accounting: a managerial emphasis / Charles T. Horngren ... [et al.]. 13th ed.

Horngren's Cost Accounting defines the cost accounting market and continues to innovate today by consistently integrating the most current practice and theory into the text. This acclaimed, market-leading text emphasizes the basic theme of "different costs for different purposes," and reaches beyond cost accounting procedures to consider concepts, analyses, and management. The 16th Edition incorporates the latest research and most up-to-date thinking into all relevant chapters, so that students are prepared for the rewards and challenges they will face in the professional cost accounting world of today and tomorrow. (Quelle: www.pearson.com).

Contemporary management accounting with Australian examples to bring the content alive for students. This edition prepares students for the rewards and challenges they might face in professional management accounting world through the development of analytical skills, values and behaviours that make management accountants effective in the workplace. It provides a decision-making framework and demonstrates how the analytical tools that students will learn prepare them to contribute to an organisation's success. Maintaining an Australian flavour within a global context it focuses on how management accounting helps managers to make better decisions. MyLab Accounting can be packaged with this edition to engage students and allow them to test their understanding while developing their problem-solving, analytical, critical thinking, and decision-making skills.

For undergraduate and MBA Cost or Management Accounting courses The text that defined the cost accounting market. Horngren's Cost Accounting, defined the cost accounting market and continues to innovate today by consistently integrating the most current practice and theory into the text. This acclaimed, market-leading text emphasizes the basic theme of [different costs for different purposes.] and reaches beyond cost accounting procedures to consider concepts, analyses, and management. This text is highly respected for its authoritative coverage, excellent examples, and extensive assignment options. It reaches beyond cost accounting procedures to consider concepts, analyses, and management.

This bestseller text offers clear, simple to understand and comprehensive coverage of management and cost accounting for students and professionals. Packed with illustrations, examples and real-life applications, Management and Cost Accounting brings together techniques, concepts and practices in a highly readable way. Keeping its international focus, the text includes a wealth of case studies featuring companies from around the world, and includes up-to-date coverage of AI and robotics and other technology which affects management accounting.

Get refreshed with Horngren/Sundem/Stratton's Introduction to Management Accounting, 14th Edition. This best-selling book offers a relevant, real-world decision-making approach to management accounting. Readers develop a solid understanding of costs and cost behavior and the use of cost information for planning and control decisions, not just inventory valuation. This book emphasizes the notion that i>You need to understand the business first, before you can understand the accounting of business. Updated to cover the most recent methods in management accounting, topics include: cost behavior, cost management systems, and activity-based costing; marketing and product decisions; the master budget; flexible budget and variance analysis; management control systems; capital budgeting; cost allocation; and job-costing and process-costing systems; basic accounting concepts, techniques, and conventions; corporate financial reports and basic financial statements; and consolidated financial statements. An excellent reference resource for managerial accountants.

For undergraduate and MBA cost or management accounting courses. Horngren's Cost Accounting spells out the cost accounting market and continues to innovate by consistently integrating the most current practice and theory into the text. This acclaimed, market-leading text emphasises the basic theme of "different costs for different purposes," and reaches beyond cost accounting procedures to consider concepts, analyses, and management. The 17th Edition incorporates the latest research and most up-to-date thinking into all relevant chapters, so that students are prepared for the rewards and challenges they will face in the professional cost accounting world of today and tomorrow.
