The very short prequel to Tessa's Pride by Olivia Brynn Cowgirl Tessa McCade has a rare day off from Bradley Equine Ranch, and she's got a plan. She mounts her favorite horse to ride to a secluded spot on the Montana horse ranch with a book, a snack, and a towel for skinny-dipping. When her boss—Joshua Bradley himself—joins her, Tessa knows it will take all her strength to keep her feelings for the man at bay. If there's one thing Tessa didn't plan on today, it's Josh's surprising admission. \*Bonus! Includes the first two chapters of Tessa's Pride!\*

As renowned Dr. Bennett Sykes, along with an elite society called the Epicureans, prepares to partake in an ancient ritual of eating human flesh to renew his soul, young Susie begins having visions of this madman and fears for the lives of those she loves. Original.

The PA of Acupuncture provides the reader with a brief overview of the history of acupuncture in China and Europe, it describes the underlying principles of Chinese medicine and how it differs from Western medicine, and it looks at the way Western medicine attempts to explain the effects achieved by acupuncture therapy. The main focus of this book is the presentation of the 361 classic acupuncture points giving details of their locations, the way they are classified, their actions and indications, as well as the needling techniques to be used. On the pages facing the descriptions, there are precise anatomical drawings showing the paths of the channels and the points located on them.

Presents a comprehensive synthesis of Herod's enterprises from archaeological and, mainly, architectural viewpoints.

American Episcopalians have long prided themselves on their love of consensus and their position as the church of American elites. They have, in the process, often forgotten that during the nineteenth century their church was racked by a divisive struggle that threatened to tear apart the very fabric of the Episcopal Church. On one side of this struggle was a powerful and aggressive Evangelical party who hoped to make the Episcopal Church into the democratic head of "the sisterhood of Evangelical Churches" in America; on the other side was the Oxford Movement, equally powerful and aggressive but committed to a range of Romantic principles which celebrated disillusion and disgust with evangelicalism and democracy alike. The resulting conflict—over theology, liturgy, and, above all, culture—led to the schism of 1873, in which many Evangelicals left the church to form the Reformed Episcopal Church. For the Union of Evangelical Christendom tells this largely forgotten story using the case of the Reformed Episcopalians to open up the ironic anatomy of American religion at the turn of the century. Today, as the Episcopal Church once again finds itself enmeshed in cultural and religious crisis, the remembrance of a similar crisis a century ago brings an eerily prophetic ring to this remarkable work of cultural and religious history.

"The objectives of this study were: to monitor daily, seasonal and geographical variability in Marbled Murrelet activity patterns at inland and adjacent at-sea sites; to evaluate the effects of weather on inland activity; to compare the level of Marbled Murrelet activity in four broad habitat types - alpine, old-growth forest at high elevation, old-growth forest at low elevation, and second-growth forest (40-60 years old): and to census Marbled Murrelet activity in as many inland locations as time permitted. The study was conducted on the Queen Charlotte Islands, primarily on Graham Island, between 22 April and 23 August 1990"—Introd., p. 1-2.

This is a story of an almost vanished Africa; a world of myth and magic in which the indigenous peoples of the continent lived for uncountable centuries before the Europeans came to shatter it. The main character is a boy who has a relationship with this Africa not unlike Kipling's Kim with the antique world of India. François Joubert, whose Huguenot ancestors settled in Africa three hundred years ago, lives as a solitary child on his father's farm. 'Hunter's Drift'. Here, in the far interior of Africa, he experiences the wonder and mystery of an ageless, natural primitive life, his perception of it heightened by the influence of three people in particular - his Bushman nurse, the head herdsman of the local Matabele clan (his father's chosen partners in the pioneering of Hunter's Drift), and a hunter of legendary fame, now the chief ranger of a vast game reserve nearby. François' meeting with an untamed Bushman, Xhabbo, whose intuitive teaching nourishes his spirit; his strange pilgrimage to the distant krall of a powerful witch-doctor; his dramatic encounter and relationship with the daughter of a retired colonial governor; all are examples of African point and European counterpoint, in a highly original theme, moving to a strangely presaged and omened climax.
