Written by William C. Vantuono , Editor-in-Chief. The Cummins QSK95 has become a major player in the passenger rail space, powering Siemens Charger diesel-electric locomotives with responsiveness, reliability and a low cost of operation. This 16-cylinder, high-speed diesel power plant has excelled in the harshest of operating conditions, including brutal arctic winters and scorching summer heat, while enabling the locomotive and passenger cars to achieve an operating speed greater than 125 mph.
