a priori whether advertising in general, and deceptive advertising in particular, increase consumption of OTC weight loss products (cooperative effects), or simply increase market share for the advertised brand without increasing overall consumption (competitive or predatory effects).

The Impact of Deceptive Advertising on Consumption: the ...

Dishonest advertisers will say just about anything to get you to buy their weight loss products. Here are some of the (false) promises from weight loss ads: Lose weight without dieting or exercising. (You won't.) You don't have to watch what you eat to lose weight. (You do.) If you use this product, you'll lose weight permanently. (Wrong.)

The Truth Behind Weight Loss Ads | FTC Consumer Information

It's especially important to heed reasonable warnings that an ad claim or business practice is deceptive. Given the potential breadth of liability under federal and state consumer protection laws, the ostrich approach is unwise. Ads promising fast, easy weight loss are invitations to investigate.

Ad agency to pay \$2 million for role in deceptive weight ...

Marketing Architects, Inc., was accused by the FTC of creating and using deceptive radio ads for weight loss products for its client, Direct Alternatives. Marketing Architects agreed to pay \$2 million to the FTC and the Attorney General's Office for the State of Maine. The FTC alleged that their federal lawsuit filed against Marketing Architects highlights just one of many deceptive weight loss supplement claims made by the company and their client.

While they demonstrate some ability to critically analyze the more obvious forms of deceptive weight-loss advertising, many girls do not recognize how advertising evokes emotional responses or how visual and narrative techniques are used to increase identification in weight-loss advertising.

How adolescent girls interpret weight-loss advertising ...

Deceptive advertising of OTC weight loss products could have several negative consequences, the magnitudes of which depend on the effect of deceptive advertising on consumption. If deceptive advertising is cooperative (increases the probability of use) then the negative consequences may be substantial; those induced by the deceptive ads to

CAE Deceptive Advertising March 29 2011 - IZA

Despite the prevalence of unsubstantiated claims in online advertising of weight loss products (OAWP), consumers tend to believe they are less susceptible to advertising claims than others. Based on a sample of American women (N = 684), drawn from Mechanical Turk, the current study examined the third-person effect of OAWP. After confirming the robustness of the third-person perception hypothesis, a structural equation model examined the third-person effect (TPE) of OAWP on restrictive and ...

Consumer perceptions of online advertising of weight loss ...

Following up on that report, in an effort to identify alternative approaches to curbing weight-loss fraud, the FTC held a public workshop on deception in weight-loss product advertising on November 19, 2002. The goal of the workshop was to explore new approaches to stop false weight-loss advertising.
