of globalization. The authors' unique approach gives you access to the latest ideas, concepts and theories in geography while also developing a strong foundation in the fundamentals of world regions, including a strong sense of place and an understanding of the connections within and between world regions. Globalization and Diversity is a briefer version of the popular Diversity Amid Globalization by the same authors.

"A damning denunciation of things as they are, and a platform for how we can do better."—Andrew Leonard, Salon Building on the international bestseller Globalization and Its Discontents, Joseph E. Stiglitz offers here an agenda of inventive solutions to our most pressing economic, social, and environmental challenges, with each proposal guided by the fundamental insight that economic globalization continues to outpace both the political structures and the moral sensitivity required to ensure a just and sustainable world. As economic interdependence continues to gather the peoples of the world into a single community, it brings with it the need to think and act globally. This trenchant, intellectually powerful, and inspiring book is an invaluable step in that process.

For a century, economists have driven forward the cause of globalization in financial institutions, labour markets, and trade. Yet there have been consistent warning signs that a global economy and free trade might not always be advantageous. Where are the pressure points? What could be done about them? Dani Rodrik examines the back-story from its seventeenth-century origins through the milestones of the gold standard, the Bretton Woods Agreement, and the Washington Consensus, to the present day. Although economic globalization has enabled unprecedented levels of prosperity in advanced countries and has been a boon to hundreds of millions of poor workers in China and elsewhere in Asia, it is a concept that rests on shaky pillars, he contends. Its long-term sustainability is not a given. The heart of Rodrik's argument is a fundamental 'trilemma': that we cannot simultaneously pursue democracy, national self-determination, and economic globalization. Give too much power to governments, and you have protectionism. Give markets too much freedom, and you have an unstable world economy with little social and political support from those it is supposed to help. Rodrik argues for smart globalization, not maximum globalization.

Few contemporary societies remain beyond the global reach of today's fast food industry. In both profound and subtle ways, this style of cuisine and the corporate brands that promote it have effectively transformed the appetites, health profiles, and consumer sensibilities of millions the world over. To better understand the variegated impact of McDonald's and other national and international quick-service eateries on local life within a non-western urban context, Ty Matejowsky offers readers a highly engaging and granular account detailing the rise and popularity of these American-style chains throughout the Philippines. In *Fast Food Globalization in the Provincial Philippines*, Matejowsky examines the rich, diverse, and decidedly syncretic food traditions of the Philippines, one of the few global markets where industry giant McDonald's lags behind in

competition with an indigenous chain. Drawing on over twenty years of ethnographic fieldwork in two provincial Philippine cities—Dagupan City, Pangasinan and San Fernando City, La Union—Matejowsky has crafted one of the few anthropological accounts of fast food production and consumption within the socioeconomic milieu of a less-developed country. By turns critically engaged and highly reflexive, he examines many of the historical, political, economic, and sociocultural complexities that characterize the Philippines' now thriving fast food scene. Amid intersections of post-colonial resistance, retail indigenization, corporatized childhood experiences, and rising “globesity,” Matejowsky considers the myriad ways this seemingly ubiquitous dining format is reimagined by industry players and everyday Filipinos to create something that is both intimately familiar and entirely new.
