This novel takes Team Tardis (Bill, Nardole, and the Doctor) Back in time to Scotland during the worst Plague history has ever seen. The story is dripping in atmosphere, detailing the devastation of the plague but also adds that alien element that is so very Doctor Who.

**Doeter-Who:Plague-City** by Jonathan Morris

The story sees the TARDIS in Edinburgh in 1645. A city in the grip of plague. The night doctor roams the streets, looking for those who will not survive. But people are being haunted. By very strange ghosts. And something lurks beneath the city. Can the Doctor find what's really going on? This is a book of three sections.

Plague City was the sixty-second novel in the BBC New Series Adventures series. It was written by Jonathan Morris and featured the Twelfth Doctor, Bill Potts and Nardole. The year is 1645, and Edinburgh is in the grip of the worst plague in its history. Nobody knows who will be the next to...

**Plague-City (novel)|Tardis|Fandom**

Plague City is part of the latest series of Doctor Who novels and the first to include latest companions Bill Potts and Nardole alongside the twelfth Doctor. Written by extended Whoniverse veteran Jonathan Morris, the story finds the TARDIS crew in the midst of a plague-infested Edinburgh in the year 1645.

**BOOK-REVIEW: Doeter-Who-Plague-City** by Jonathan Morris---

Nobody knows who will be the next to succumb – nobody except the Night Doctor, a masked figure that stalks the streets, seeking out those who will not live to see another day. But death is not the end. The Doctor, Bill and Nardole discover that the living are being haunted by the recently departed – by ghosts that do not know they are dead. And there are other creatures lurking in the shadows, slithering, creeping creatures filled with an insatiable hunger.

**Doeter-Who:Plague-City-eBook** by Jonathan Morris---

The Doctor, Bill and Nardole find themselves discovering the secrets of these strange ghosts while trying to avoid the grip of the Bubonic Plague. Plague City is a very apt title in historical terms for this story. Set in Edinburgh in 1645, the city is the in the grip of the bubonic plague and is the worst thing to ever happen to the city's ...

**Doeter-Who:Plague-City** by Jonathan Morris (Hardback, 2017---

A plague doctor was a physician who treated victims of the bubonic plague. In times of epidemics, these physicians were specifically hired by towns where the plague had taken hold.Since the city was paying them a salary, they treated everyone, wealthy or poor. However, some plague doctors were known to charge patients and their families additional fees for special treatments or false cures.

A plague doctor contract was an agreement between a town's administrators and a doctor to treat bubonic plague patients. These contracts are easy to find in European city archives. A plague doctor was specifically hired by a European city or town to treat plague patients, rich or poor, in times of epidemics.

" We should leave. We definitely should leave. But... chatty ghosts! " The year is 1645, and Edinburgh is in the grip of the worst plague in its history. Nobody knows who will be the next to succumb – nobody except the Night Doctor, a masked figure that stalks the streets, seeking out those who will not live to see another day. But death is not the end. The Doctor, Bill and Nardole discover that the living are being haunted by the recently departed – by ghosts that do not know they are dead. And there are other creatures lurking in the shadows, slithering, creeping creatures filled with an insatiable hunger. The Doctor and his friends must face the terrifying secret of the Street of Sorrows – that something which has lain dormant for two hundred million years is due to destroy the entire city... An original novel featuring the Twelfth Doctor, Bill and Nardole as played by Peter Capaldi, Pearl Mackie and Matt Lucas.

Masks hide more than just flesh... A sadistic killer stalks the city of Green Valley Falls and with limited resources the police are getting nowhere. Fear grips the heart of the city as the unusual nature of the attacks are kept from the media. Laurie Hood, a young man living a mundane life loses a friend to the killer and begins investigating the case himself. He quickly has to adapt to his new life, as the killer widens his list of targets and continues his reign of terror. Can one man make a difference?

" Here on Saturn, it literally rains diamonds. " For over fifteen years the crew of Kollo-Zarnista Mining Facility 27 has been extracting diamonds from deep within the atmosphere of Saturn, diamonds that help to fund the ever-expanding Human Empire. But when a mining operation goes wrong, a rescue mission must be launched to save a worker lost overboard, a worker who claims that he has seen something amongst the swirling clouds. Something that can ' t possibly exist. When the Doctor and Bill arrive, they immediately find themselves caught between hostile miners, suspicious security guards and corrupt company officials as they face accusations of sabotage and diamond theft. And below them, in the crushing atmosphere of the gas giant, something is starting to rise. An original novel featuring the Twelfth Doctor and Bill as played by Peter Capaldi and Pearl Mackie.

You're going to need a bigger sofa... Doctor Who's biggest and most comprehensive monster guide yet, The Monster Vault takes you on the ultimate tour of the Whoniverse, discovering and cataloguing every wonderful and terrifying creature the Doctor has ever encountered. From the notorious Daleks, to evil Stenza warrior Tzim-Sha and the ancient Thijarians, The Monster Vault features in-depth profiles on each monster, showing the Doctor's most dangerous enemies in their natural habitat and unveiling their secret histories. You will also discover how monsters were created and designed, behind-the-scenes secrets, unseen details from the original scripts, case studies and rare artwork. This lavish and visually stunning book provides an unrivalled wealth of information, allowing you to explore the rich history of Doctor Who and expand your knowledge and understanding of characters old and new.

Named a Must-Read Book by the NY Post An aristocratic Russian doctor races to contain a deadly plague in an outpost city in Manchuria - before it spreads to the rest of the world. 1910: people are mysteriously dying at an alarming rate in the Russian-ruled city of Kharbin, a major railway outpost in Northern China. Strangely, some of the dead bodies vanish before they can be identified. During a dangerously cold winter in a city gripped by fear, the Baron, a wealthy Russian aristocrat and the city's medical commissioner, is determined to stop this mysterious plague. Battling local customs, an occupying army, and a brutal epidemic with no name, the Baron is torn between duty and compassion, between Western medical science and respect for Chinese tradition. His allies include a French doctor, a black marketeer, and a charismatic Chinese dwarf. His greatest refuge is the intimacy he shares with his young Chinese wife - but she has secrets of her own. Based on a true story that has been lost to history, set during the last days of imperial Russia, THE WINTER STATION is a richly textured and brilliant novel about mortality, fear and love.

In 1992, Dr. Ross A. Slotten signed more death certificates in Chicago—and, by inference, the state of Illinois—than anyone else. As a family physician, he was trained to care for patients from birth to death, but when he completed his residency in 1984, he had no idea that many of his future patients would be cut down in the prime of their lives. Among those patients were friends, colleagues, and lovers, shunned by most of the medical community because they were gay and HIV positive. Slotten wasn ' t an infectious disease specialist, but because of his unique position as both a gay man and a young physician, he became an unlikely pioneer, swept up in one of the worst epidemics in modern history. Plague Years is an unprecedented first-person account of that epidemic, spanning not just the city of Chicago but four continents as well. Slotten provides an intimate yet comprehensive view of the disease ' s spread alongside heartfelt portraits of his patients and his own conflicted feelings as a medical professional, drawn from more than thirty years of personal notebooks. In telling the story of someone who was as much a potential patient as a doctor, Plague Years sheds light on the darkest hours in the history of the LGBT community in ways that no previous medical memoir has.

A spine-chilling saga of virulent racism, human folly, and the ultimate triumph of scientific progress. For Chinese immigrant Wong Chut King, surviving in San Francisco meant a life in the shadows. His passing on March 6, 1900, would have been unremarkable if a city health officer hadn ' t noticed a swollen black lymph node on his groin—a sign of bubonic plague. Empowered by racist pseudoscience, officials rushed to quarantine Chinatown while doctors examined Wong ' s tissue for telltale bacteria. If the devastating disease was not contained, San Francisco would become the American epicenter of an outbreak that had already claimed ten million lives worldwide. To local press, railroad barons, and elected officials, such a possibility was inconceivable—or inconvenient. As they mounted a cover-up to obscure the threat, ending the career of one of the most brilliant scientists in the nation in the process, it fell to federal health officer Rupert Blue to save a city that refused to be rescued. Spearheading a relentless crusade for sanitation, Blue and his men patrolled the squalid streets of fast-growing San Francisco, examined gory black buboes, and dissected diseased rats that put the fate of the entire country at risk. In the tradition of Erik Larson and Steven Johnson, Randall spins a spellbinding account of Blue ' s race to understand the disease and contain its spread—the only hope of saving San Francisco, and the nation, from a gruesome fate.

Humorous Portal Fiction Adventure Series - USA Today Bestselling Science Fantasy Author " I can guarantee you've never read anything like this before." A missing Creator. An army of mechanical zombies. And a devastating secret that will destroy everything. Adal, Arija and the rest of their team are happy to be back home in the World Machine. But before they can get comfortable, things start to heat back up between the Dwellers that live in the Machine and those that would see it destroyed. Webley is the only one who can quell the buzz of war, but the Creator has gone missing. That's when the screaming starts. Reports of a masked creature spread like the plague. Then a virus breaks out in the Machine. A virus that turns the Dwellers into Zombies. Can the team unmask the doctor and find a cure before the virus destroys the world? "The most intense book of the series so far!" "This is a twisty turny thrill ride and I can't wait for the next one!"
