Levels of business must deliver within their organizations throughout Africa. It addresses current and near-future management issues through both classic and contemporary management thought. In addition to placing management in context, the book also explores the knowledge, skills, and dispositions required of managers to perform the management functions of planning, organizing, and leading in a volatile business world.

“Project management is the
problem and not the solution.”

Professional project management
is a requirement to ensure that
the results meet the
expectations. Tools and
methodologies give one
something to go on. Problems in
the government arena may be
solved less creatively due to a
certain lack of understanding of
the problem itself.
