"Tells the story of migrants and communities in the Southeast Asian borderlands. The Black Flags raided their way from southern China into northern Vietnam, competing in the second half of the nineteenth century against other armed migrants and uplands communities for control of commerce (e.g., opium) and natural resources (e.g., copper for making coins). At the edges of empires--the Qing empire in China, the Vietnamese empire governed by the Nguyen dynasty, and, eventually, French colonial Vietnam--the Black Flags and their rivals sustained networks of power and dominance through the framework of political regimes. The history of these imperial bandits and the communities that resisted them demonstrates the plasticity of borderlines, the limits of imposed boundaries, and the flexible division between apolitical banditry and political rebellion in the borderlands of China and Vietnam. Historical studies of these areas tend to examine events only from the perspective of local communities or from the anxious view of imperial officials. By focusing on the Black Flags, upland communities, and their relationships to various empires, this study illustrates borderland processes at the violent edges of empire. It contributes to the ongoing reassessment of borderland areas as frontiers for state expansion, arguing that projects of empire often were instruments of power for armed migrants and their allies, and that, as a setting for forms of human activity that defy tight boundaries, borderlands continued to exist well after the establishment of formal boundaries"--

The casualty of a 'bad upbringing, ' he takes out his anger in predictable ways, veering onto a path of crime that lands him behind bars. It is there, amid the unremitting harshness of prison life, that he has to find in himself the insights that will allow him to emerge from victimhood toward personhood. *The Violent Gestures of Life* will appeal to all audiences, from young adult to adult. It is a novel about incarceration, written by one who has experienced life as a prison inmate

Written by an eminent authority on the Renaissance, these classic essays deal not only with Paul Kristeller's specialty, Renaissance humanism and philosophy, but also with Renaissance theories of art. The focus of the collection is on topics such as humanist learning, humanist moral thought, the diffusion of humanism, Platonism, music and learning during the early Renaissance, and the modern system of arts in relation to the Renaissance. For this volume the author has written a new preface, a new essay, and an afterword.

There are hundreds of lives sown inside *Pretty Little Mistakes*, Heather McElhatton's singularly spectacular, breathtakingly unique novel that has more than 150 possible endings. Is it destiny or decision that controls our fate? You can't change your past and start over from scratch in real life—but in *Pretty Little Mistakes*, you can! But be warned, choose wisely.
