This book provides a commentary on the law of the EU related to the Monetary Union. It contains a comprehensive analysis of all provisions of the Statute of the European System of Central Banks (ESCB) and the European Central Bank (ECB). In addition, the book also analyses all provisions of the Treaties themselves which regulate the ESCB and the ECB. This analysis is supplemented by commentaries on other Protocols which contain relevant rules for the Monetary Union. In essence, all relevant statutory rules governing the euro and its key monetary authority, the European Central Bank, are unfolded and explained in one volume. This gives the book a unique position in the legal literature on the law of the EU. With contributions by renowned academics and practitioners, this book is an expanded and updated translation of the 2013 German commentary, EWU Kommentar zu Europäischen Währungsunion (Mohr Siebeck) and is an invaluable resource for practitioners and academics alike who are looking for a provision-by-provision commentary on the laws governing the European Monetary Union.

The economics of education is a burgeoning area of study, employing increasingly sophisticated analytical tools to answer questions with high societal impact. Thus, the aim of this handbook is to provide readers with an up-to-date overview of the current state of the field

of the economics of education and its main areas of research. This comprehensive handbook provides an authoritative overview of key theoretical and policy areas, covering topics like econometric methods for education economics, returns to education, competition in education provision, education and economic growth, and education and inequality. It reviews the current state of research from early childhood through postgraduate education as well as adult education and life-long learning. Offering a truly international perspective, the handbook benefits from a global group of contributors and attention to both developed and developing country contexts. The Routledge Handbook of the Economics of Education will be a valuable resource for advanced students, researchers, and policymakers across economics, education, and public policy.

This is the first of two volumes containing papers and commentaries presented at the Eleventh World Congress of the Econometric Society, held in Montreal, Canada in August 2015. These papers provide state-of-the-art guides to the most important recent research in economics. The book includes surveys and interpretations of key developments in economics and econometrics, and discussion of future directions for a wide variety of topics, covering both theory and application. These volumes provide a unique, accessible survey of progress on the discipline, written by leading specialists in their fields. The first volume includes theoretical and applied papers addressing topics such as dynamic mechanism design, agency problems, and networks.

This book is mainly a collection of selected papers presented at the International Conference on Economics of Education at the University of Tartu, Estonia. The contributions presented here illustrate the wide variety of issues as human and social capital, skills, education and research institutions, educational services, and management, accounting and compensation systems in schools and universities. This collection of studies provides information, ideas and research that should be valuable for practitioners, policy makers, academics and students.
