From T.J. Clark comes this provocative study of the origins of modern art in the painting of Parisian life by Edouard Manet and his followers. The Paris of the 1860s and 1870s was a brand-new city, recently adorned with boulevards, cafés, parks, Great Exhibitions, and suburban pleasure grounds—the birthplace of the habits of commerce and leisure that we ourselves know as "modern life." A new kind of culture quickly developed in this remade metropolis, sights and spectacles avidly appropriated by a new kind of "consumer":

clerks and shopgirls, neither working class nor bourgeois, inventing their own social position in a system profoundly altered by their very existence. Emancipated and rootless, these men and women flocked to the bars and nightclubs of Paris, went boating on the Seine at Argenteuil, strolled the island of La Grande-Jatte—enacting a charade of community that was to be captured and scrutinized by Manet, Degas, and Seurat. It is Clark's cogently argued (and profusely illustrated) thesis that modern art emerged from these painters' attempts to represent this new city and its inhabitants. Concentrating on three of Manet's greatest works and Seurat's masterpiece, Clark traces the appearance and development of the artists' favorite themes and subjects, and the technical innovations that they employed to depict a way of life which, under its liberated, pleasure-seeking surface, was often awkward and anxious. Through their paintings, Manet and the Impressionists ask us, and force us to ask ourselves: Is the freedom offered by modernity a myth? Is modern life heroic or monotonous, glittering or tawdry, spectacular or dull? The *Painting of Modern Life* illuminates for us the ways, both forceful and subtle, in which Manet and his followers raised these questions and doubts, which are as valid for our time as for the age they portrayed.

and career is the first book to explore the transformation of his style and subject matter in the 1870s and early 1880s. The name Manet often evokes the provocative, heroically scaled pictures he painted in the 1860s for the Salon, but in the late 1870s and early 1880s the artist produced quite a different body of work: stylish portraits of actresses and demimondaines, luscious still lifes, delicate pastels, intimate watercolors, and impressionistic scenes of suburban gardens and Parisian cafés. Often dismissed as too pretty and superficial by critics, these later works reflect Manet's elegant social world, propose a radical new alignment of modern art with fashionable femininity, and record the artist's unapologetic embrace of beauty and visual pleasure in the face of death. Featuring nearly three hundred illustrations and nine fascinating essays by established and emerging Manet specialists, a technical analysis of the late Salon painting *Jeanne (Spring)*, a selection of the artist's correspondence, a chronology, and more, *Manet and Modern Beauty* brings a diverse range of approaches to bear on a little-studied area of this major artist's oeuvre.

than seeking consensus on his art through one methodology, or focusing on one crucial work or period, this collection investigates the range of Manet's art in the context of his time and considers how his vision has shaped subsequent interpretations. Specific essays explore the relationship between Manet and Whistler; Emile Zola's attitude toward the artist; Manet's engagement with moral and ethical questions in his paintings; and the heritage of Charles Baudelaire and Clement Greenberg in critical responses to Manet. Through these and other analyses, this volume illuminates the scope of Manet's career, and indicates the crucial position the artist held in generating a modernist avant-garde aesthetic.

Although his career spanned a mere twenty years, Édouard Manet remains one of the most influential artists in history. Rejecting the classical style of painting religious or mythological subjects, Manet was one of the first artists in the nineteenth century to paint modern people in modern situations. Many of his paintings depicted the everyday street life of Paris, especially the cafés. The realism of his art offended the mainstream art community, and as a result, Manet's work was criticized as being obscene and unskilled. Despite the critics, paintings such as *The Luncheon on the Grass* and *Olympia* inspired the Impressionist movement and marked the beginning of

Rubin also examines Manet's relationship to three of the leading critics of his day - Baudelaire, Zola, and Mallarme - giving special attention to Mallarme's appreciation, and eventual use in his own poetry, of the paradox between immersion and externality in Manet's oeuvre. Finally, the book uses the image of the bouquet to exemplify Manet's creative poetics through an exploration of his still life.
