team in the management discipline matches their combined research and text-writing experience. Essentials of Management concisely surveys current management theories and research. Through a variety of real world examples from small, medium, and large companies the reader learns how those ideas are used by practicing managers. The organization of this text follows the mainstream functional approach of planning, organizing, leading, and controlling; but the content is flexible and encourages instructors to use the organization they are most comfortable with. The themes of diversity, ethics, and information technology are clearly evident through in-text examples, photographs, "unboxed" stories, and the end-of-chapter material - all areas of importance that truly serve to bring to life the workplace realities that today's student will encounter in the course of a career.

Jones/Haddad - Essentials of Contemporary Management, "Makes Management Real" for students. The sixth Canadian edition presents management in a way that makes its relevance obvious even to students who may lack exposure to a "real-life" management context. Jones relates management theory to real life examples and drives home the message that management matters. Management matters because it determines how well organizations perform, and because managers and organizations affect the lives of people who work inside and the people outside the organization, such as customers, communities, and shareholders. Essentials of Contemporary Management, Sixth Canadian edition, provides a concise offering of current management theories and research. Through a variety of real world examples from small, medium, and large companies, students learn how those ideas are used by practicing managers. The organization of the Jones text follows the mainstream functional approach of planning, organizing, leading, and controlling, but the content is flexible. The important themes of diversity, ethics, globalization, and information technology are integrated throughout with examples, strengths, weaknesses, opportunities, personalities, and problems to provide this context.
