Every Reason to Leave is a personal and detailed story of one couple's unbelieavable marital journey. After almost ten years of marriage, Vicki Rose found herself the single mother of two young children, separated from her husband, Bill, a part owner of the New York Yankees addicted to cocaine, women, and work. Both Jewish, Vicki and Bill each came to know Jesus Christ during their 5-year separation, and amazing reconciliation and renewal soon took place. You wouldn't believe what they're marriage looks like now. This story is an example of what God can do to restore a broken—and seemingly irreparable—marriage. If you're in the black hole of marital despair, thinking about divorce, and wondering if it's worth the effort to stay married, this book is for you.

This book is concerned with the conditions under which epistemic reasons provide justification for beliefs. The author draws on metaethical theories of reasons and normativity and then applies his theory to various contemporary debates in epistemology. In the first part of the book, the author outlines what he calls the dispositional architecture of epistemic reasons. The author offers and defends a dispositional account of how propositional and doxastic justification are related to one another. He then argues that the dispositional view has the resources to provide an acceptable account of the notion of the basing relation. In the second part of the book, the author examines how his

theory of epistemic reasons bears on the issues involving perceptual reasons. He defends dogmatism about perceptual justification against conservatism and shows how his dispositional framework illuminates certain claims of dogmatism and its adherence to justification internalism. Finally, the author applies his dispositional framework to epistemological topics including the structure of defeat, self-knowledge, reasoning, emotions and motivational internalism. The Dispositional Architecture of Epistemic Reasons demonstrates the value of employing metaethical considerations for the justification of beliefs and propositions. It will be of interest to scholars and advanced students working in epistemology and metaethics.

The inspirational bestseller that ignited a movement and asked us to find our WHY. Discover the book that is captivating millions on TikTok and that served as the basis for one of the most popular TED Talks of all time—with more than 56 million views and counting. Over a decade ago, Simon Sinek started a movement that inspired millions to demand purpose at work, to ask what was the WHY of their organization. Since then, millions have been touched by the power of his ideas, and these ideas remain as relevant and timely as ever. START WITH WHY asks (and answers) the questions: why are some people and organizations more innovative, more influential, and more profitable than others? Why do some command greater loyalty from customers and employees alike? Even among the successful, why are so few able to repeat their success over and over? People like Martin Luther King Jr., Steve Jobs, and the Wright Brothers had little in common, but they all started with WHY. They realized that people won't truly buy into a product, service, movement, or idea until they understand the WHY behind it. START WITH WHY shows that the leaders who have had the greatest influence in the world all think, act and communicate the same way—and it's the opposite of what everyone else does. Sinek calls this powerful idea The Golden Circle, and it provides a framework upon which organizations can be built, movements can be led, and people can be inspired. And it all

starts with WHY.
