I have a 50 HP eTec purchased this past spring. Ran fine until a piston rod bearing failed and lost the whole powerhead. Evirude dealer I purchased it from was heroic in getting me back on the water in just a few days. Brand new dressed powerhead from Evirude shipped overnite, installed and voila, on the lake that Saturday.

Weighing in at 250 lbs (113 kg) and hailing from Waukegan, IL is the Evinrude E-TEC 50-hp. It's had an outstanding season putting all of its 52.7ccs to work plying the waters of the world. It's not an engine that you'll put on a fiberglass bowrider, but as for an aluminum fishing boat, it's downright ideal.
