A First Nations former hockey star looks back on his life as he undergoes treatment for alcoholism in this novel from the author of Dream Wheels. Saul Indian Horse is a child when his family retreats into the woods. Among the lakes and the cedars, they attempt to reconnect with half-forgotten traditions and hide from the authorities who have been kidnapping Ojibway youth. But when winter approaches, Saul loses everything: his brother, his parents, his beloved grandmother—and then his home itself. Alone

in the world and placed in a horrific boarding school, Saul is surrounded by violence and cruelty. At the urging of a priest, he finds a tentative salvation in hockey. Rising at dawn to practice alone, Saul proves determined and undeniably gifted. His intuition and vision are unmatched. His speed is remarkable. Together they open doors for him: away from the school, into an all-Ojibway amateur circuit, and finally within grasp of a professional career. Yet as Saul's victories mount, so do the indignities and the taunts, the racism and the hatred—the harshness of a world that will never welcome him, tied inexorably to the sport he loves. Spare and compact yet undeniably rich, Indian Horse is at once a heartbreaking account of a dark chapter in our history and a moving coming-of-age story. “Shocking and alien, valuable and true... A master of empathy.”—Jane Smiley, Pulitzer Prize-winning author of Golden Age “A severe yet beautiful novel... Indian Horse finds the granite solidity of Wagamese's prose polished to a lustrous sheen; brisk, brief, sharp chapters propel the reader forward.”—Donna Bailey Nurse, National Post (Toronto)

the often manipulative media coverage of youth crises and so-called alternative programs designed to help "troubled" teens, Teenage Wasteland draws new conclusions and presents solid reasons to admire the resilience of suburbia's dead end kids. "A powerful book."—Samuel G. Freedman, New York Times Book Review "[Gaines] sheds light on a poorly understood world and raises compelling questions about what society might do to help this alienated group of young people."—Ann Grimes, Washington Post Book World "There is no comparable study of teenage suburban culture . . . and very few ethnographic inquiries written with anything like Gaines's native gusto or her luminous eye for detail."—Andrew Ross, Transition "An outstanding case study. . . . Gaines shows how teens engage in cultural production and how such social agency is affected by economic transformations and institutional interventions."—Richard Lachman, Contemporary Sociology "The best book on contemporary youth culture."—Rolling Stone

Century, when lynchings were commonplace throughout the American South, a few courageous reporters from the North risked their lives to expose these atrocities. They were African-American men who, due to their light skin color, could "pass" among the white folks. They called this dangerous assignment going "incognegro." Zane Pinchback, a reporter for the New York-based New Holland Herald, is sent to investigate the arrest of his own brother, charged with the brutal murder of a white woman in Mississippi. With a lynch mob already swarming, Zane must stay "incognegro" long enough to uncover the truth behind the murder in order to save his brother -- and himself. Suspenseful, unsettling and relevant, Incognegro is a tense graphic novel of shifting identities, forbidden passions, and secrets that run far deeper than skin color.

Understanding and Evaluating Research: A Critical Guide aims to sensitize students to the necessity of learning how not to defer to the mysterious authority of the experts, but rather to learn how to be a critical consumer of others' research, and to gain confidence in their ability to be producers of research. Sue McGregor shows students how to be research literate, and how to find, critique and apply other people's scholarship. This textbook is grounded in a solid understanding of the prevailing research methodologies for creating new knowledge (philosophical

underpinnings), which in turn dictate problem posing, theory selection, and research methods (tasks for sampling, collecting and analyzing data, and reporting results).
