Are you TIRED of the RAT RACE? Do you wish you had MORE TIME and MORE MONEY? Would you like to NEVER WORK AGAIN? If you answered "YES!", then you need to look no further than Dan "The Man" Lok's new book - F.U. MONEY. If you have ever thought to yourself: • How come I have to keep back to this DEAD-END JOB? • How can I make enough money to afford to STOP WORKING and START HAVING FUN?? • When will it be MY TURN to live the GOOD LIFE??? Imagine how your life would become if you knew what it really takes to make more money that you have ever dreamed possible. For instance, can you imagine that... • All the money stress in your life suddenly vanishes? • You get to fire your boss and tell him where to shove it? • Take holidays whenever you want and for as long as you want? • You are living in the house of your dreams, driving the car of your dreams and also have a boat and a cabin and even a plane if you want? • You can afford to give your children the perfect, healthy, fun and fulfilling childhood that you always wanted to give them? In this no-nonsense, no-holds-barred guide, international entrepreneur, best-selling author, and self-made multi-millionaire Dan Lok shows you how to live the lifestyle you really want without having to work or rely on anyone else for money.

FU money is just the state of financial/professional security that allows you not to depend on your particular job. As previously mentioned, having a dual-income situation can make almost any level of savings an FU money situation. What also lowers the bar drastically is having a career where you can easily switch jobs (or careers). From this book, you'll get: An idea of what you were put on this earth to do. Increased happiness, purpose, and meaning. A practical plan to future-proof your career. A way to declutter your life, so you're able to see and think again. A fully costed route to financial independence (call it early retirement if you like). A system to manage your finances. An investing plan that will knock your socks off and explain how you can get your F.U. Money. If you read this book and carry out its recommendations, within a year, you will have transformed your future. It's never too late. Carpe diem. You are the master of your fate: you (and no one else) are the captain of your soul.

Are you happy? Is there more to life than this? What if there is another way?

The co-host of the popular NPR podcast Planet Money provides a well-researched, entertaining, somewhat irreverent look at how money is a made-up thing that has evolved over time to suit humanity's changing needs. Money only works because we all agree to believe in it. In Money, Jacob Goldstein shows how money is a useful fiction that has shaped societies for thousands of years, from the rise of coins in ancient Greece to the first stock market in Amsterdam to the emergence of shadow banking in the 21st century. At the heart of the story are the fringe thinkers and world leaders who reimagined money. Kublai Khan, the Mongol emperor, created paper money backed by nothing, centuries before it appeared in the west. John Law, a professional gambler and convicted murderer, brought modern money to France (and destroyed the country's economy). The cypherpunks, a group of radical libertarian computer programmers, paved the way for bitcoin. One thing they all realized: what counts as money (and what doesn't) is the result of choices we make, and those choices have a profound effect on who gets more stuff and who gets less, who gets to take risks when times are good, and who gets screwed when things go bad. Lively, accessible, and full of interesting details (like the 43-pound copper coins that 17th-century Swedes carried strapped to their backs), Money is the story of the choices that gave us money as we know it today.

The #1 New York Times Bestseller Jessica reveals for the first time her inner monologue and most intimate struggles. Guided by the journals she's kept since age fifteen, and brimming with her unique humor and down-to-earth humanity, Open Book is as inspiring as it is entertaining. This was supposed to be a very different book. Five years ago, Jessica Simpson was approached to write a motivational guide to living your best life. She walked away from the offer, and nobody understood why. The truth is that she didn't want to lie. Jessica couldn't be authentic with her readers if she wasn't fully honest with herself first. Now America's Sweetheart, preacher's daughter, pop phenomenon, reality tv pioneer, and the billion-dollar fashion mogul invites readers on a remarkable journey, examining a life that blessed her with the compassion to help others, but also burdened her with an almost crippling need to please. Open Book is Jessica Simpson using her voice, heart, soul, and humor to share things she's never shared before. First celebrated for her voice, she became one of the most talked-about women in the

world, whether for music and fashion, her relationship struggles, or as a walking blonde joke. But now, instead of being talked about, Jessica is doing the talking. Her book shares the wisdom and inspirations she's learned and shows the real woman behind all the pop-culture clichés — “chicken or fish,” “Daisy Duke,” “football jinx,” “mom jeans,” “sexual napalm...” and more. Open Book is an opportunity to laugh and cry with a close friend, one that will inspire you to live your best, most authentic life, now that she is finally living hers.

Would you like to make a living with your writing? This book will show you how. I spent 13 years working as a cubicle slave in the corporate world, then I started writing books and blogging, using my words to create products and attract readers. In September 2011, I left my day job to become a full-time author entrepreneur. You can do it too.

NEW YORK TIMES BESTSELLER * When did America give up on fairness? The author of *Fantasyland* tells the epic history of how America decided that big business gets whatever it wants, only the rich get richer, and nothing should ever change--and charts a way back to the future. "The one book everyone must read as we figure out how to rebuild our country."--Walter Isaacson, author of *Steve Jobs* and *Leonardo da Vinci* During the twentieth century, America managed to make its economic and social systems both more and more fair and more and more prosperous. A huge, secure, and contented middle class emerged. All boats rose together. But then the New Deal gave way to the Raw Deal. Beginning in the early 1970s, by means of a long war conceived of and executed by a confederacy of big business CEOs, the superrich, and right-wing zealots, the rules and norms that made the American middle class possible were undermined and dismantled. The clock was turned back on a century of economic progress, making greed good, workers powerless, and the market all-powerful while weaponizing nostalgia, lifting up an oligarchy that served only its own interests, and leaving the huge majority of Americans with dwindling economic prospects and hope. Why and how did America take such a wrong turn? In this deeply researched and brilliantly woven cultural, economic, and political chronicle, Kurt Andersen offers a fresh, provocative, and eye-opening history of America's undoing, naming names, showing receipts, and unsparingly assigning blame--to the radical right in economics and the law, the high priests of high finance, a complacent and complicit Establishment, and liberal "useful idiots," among whom he includes himself. Only a writer with Andersen's crackling energy, deep insight, and ability to connect disparate dots and see complex systems with clarity could make such a book both intellectually formidable and vastly entertaining. And only a writer of Andersen's vision could reckon with our current high-stakes inflection point, and show the way out of this man-made disaster.

The smash-hit Sunday Times bestseller that will transform your understanding of our planet and life itself. 'Dazzling, vibrant, vision-changing' Robert Macfarlane The more we learn about fungi, the less makes sense without them. They can change our minds, heal our bodies and even help us avoid environmental disaster; they are metabolic masters, earth-makers and key players in most of nature's processes. In *Entangled Life*, Merlin Sheldrake takes us on a mind-altering journey into their spectacular world, and reveals how these extraordinary organisms transform our understanding of our planet and life itself. 'Gorgeous!' Margaret Atwood (on Twitter) 'Reads like an adventure story... Wondrous' Sunday Times 'Urgent, astounding and necessary' Helen Macdonald 'A magical writer' Russell Brand * A Sunday Times, Daily Telegraph, New Statesman, The Times, Evening Standard, Mail on Sunday, BBC Science Focus and Time Book of the Year *
