Chinese kinship - Wikipedia
The traditional family in China consisted of parents, children, extended family, and even kinship relationships. Under this prereform China model, male children were especially important in rural areas due to the need for labor on farms. The word "family" usually referred to a married couple who may or may not have children.

The Chinese 宗法制度, kinship system is classified as a Sudanese kinship system (also referred to as the "Descriptive system") used to define family. Identified by Lewis Henry Morgan in his 1871 work *Systems of Consanguinity and Affinity of the Human Family*, the Sudanese system is one of the six major kinship systems together with Eskimo, Hawaiian, Iroquois, Crow, and Omaha .

Chinese kinship | Familypedia | Fandom

The Chinese kinship system is patrilineal (traces ancestry on the father's side). A father's primary duty was to bring up his sons to preserve and improve on his life's accomplishments; a son's primary

Download File PDF Family And Kinship In Chinese

duty was to honor his parents, provide for them (the eldest son's duty) through their old age, and carry on the family name through sons of his own.

Chinese Kinship Titles

Chinese culture operates based upon both patrilineal and patriarchal design. Patrilineal means that the family lineage runs through the male in the family. Family membership is inherited through the father. Patriarchal means that the families are typically run by the male members within it.
