The book presents the work of the RILEM Technical Committee 261-CCF, which organized the challenging International Round Robin Test (RRT) on the creep behaviour of Fibre Reinforce Concrete (FRC) cracked specimens. Although different creep test methodologies have been developed in recent years, the absence of a standardised creep methodology hindered general comparisons. Therefore, the RILEM TC 261-CCF launched an ambitious international RRT program to improve the knowledge on long-term behaviour of cracked sections of FRC and assess all the different testing methodologies, assuming the big variability of testing criteria among the scientific community. The participation of 19 laboratories across 20 institutions in 14 countries all over the world enabled the realisation of the largest experimental campaign on creep in the cracked state. As a result of the RRT, an extensive database of creep test results was created containing comprehensive information from 124 cracked FRC specimens tested using different creep testing procedures in agreed conditions. The book will benefit academics and practitioners interested in the long-term behaviour of FRC since it served as basis for the recently published RILEM Recommendation on creep testing procedure and represents the current knowledge on creep in cracked FRC specimens.

The crack cocaine years: from deviant globalization to the 'get money' culture of late twentieth-century America.

Solving complex problems and selling their solutions is critical for personal and organizational success. For most of us, however, it doesn’t come naturally and we haven’t been taught how to do it well. Research shows a host of pitfalls trips us up when we try: We’re quick to believe we understand a situation and jump to a flawed solution. We seek to confirm our hypotheses and ignore conflicting evidence. We view challenges incompletely through the frameworks we know instead of with a fresh pair of eyes. And when we communicate our recommendations, we forget our reasoning isn’t obvious to our audience. How can we do it better? In *Cracked It!*, seasoned strategy professors and consultants Bernard Garrette, Corey Phelps and Olivier Sibony present a rigorous and practical four-step approach to overcome these pitfalls. Building on tried-and-tested (but rarely revealed) methods of top strategy consultants, research in cognitive psychology, and the latest advances in design thinking, they provide a step-by-step process and toolkit that will help readers tackle any challenging business problem. Using compelling stories and detailed case examples, the authors guide readers through each step in the process: from how to state, structure and then solve problems to how to sell the solutions. Written in an engaging style by a trio of experts with decades of experience researching, teaching and consulting on complex business problems, this book will be an indispensable manual for anyone interested in creating value by helping their organizations crack the problems that matter most.

There are two constants in academic and theological discourse throughout history, they are the debate around secularization and the dialogue concerning the intersection of religion and education. Each age has had its debate about modernizing forces that drive concerns of impending secularization. In this publication this theme is approached from perspectives of teachers, of students, of policy makers and situated in a politico-historical context. Aware of the fact that in today’s plural societies one sacred canopy is non-existent anymore, cracks of the sacred canopy/canopies are described, as well as ‘the light that gets in’, the possible and challenging ways out are roughly sketched.

"Cracked Shell Whole Yolk" is a collection of life events from the mind of a woman who survives domestic violence. Margo Viola escapes her abuser through the only avenue available "Death." After cheating death herself, she in turn had crossed the line and committed the sin of having another person's life taken. Cracked Shell Whole Yolk depicts the trials and tribulations of Margo's entire life path, coupled with her overwhelming desire to make right what she had wronged. Margo shows an innate ability to overcome adversity. Margo's life story proves that there are desperate changes needed in our Judicial System to narrow the brood spectrum of disparity, while handling Domestic Violence cases. Margo uses her bitter life experience as a tool for self-betterment and a guide to help others. She displays how one woman picked up her life, with heightened clarity and determination. Her strives marked the truth by living proof, of how one individual can make a difference. Margo's Memoir prompts society to take a cold hard look at the true dynamics of Domestic Violence, and how it plagues our community, thus erodes our family core. Cracked Shell/Whole Yolk is a thrilling adventure of a woman's life that soars at each turn of the page. Her experience touches all of us as a collective whole. Margo truly emerges from a "Cracked Shell" into a fully rounded "Whole Yolk"!

Few drugs have as many cultural and social implications as cocaine and crack. These drugs link Hollywood and Detroit, and are signifiers of classic rock icons and racial inequality. How have these drugs shaped the world we live in? How do they shape lives today? How can addictions to these drugs be overcome? Cocaine and crack are highly addictive and can cause severe health problems, but there are ways to get support and treatment. This book offers the support readers need in order to seek treatment for themselves and their loved ones.

This book is a collection of reflections and observations about life before and after I came to prison, as currently seen from the perspective of this Awake Emptiness at my core. I am profoundly grateful to the late Douglas Harding and his friends for helping me to see Who I Really Am, and to thus break the bonds of contraction and confusion that defined my criminal past. Truly without deserving it, I have been blessed with the miracle of inner freedom, the turnaround of turnarounds, what Harding referred to as the no-meter path to heaven. This book is about living and failing to live the awakened life, and how discovering one's Emptiness—one's divinity—is the difference between the two, which, as it turns out, were never two to begin with. As Harding often said, you cannot fix yourself from the level of the self. Only the One who is Other and yet not other, who is both No-thing and Everything, who is at the very heart of you as Who You Really Are, can transform your life.
