of strategic decision-making, brings together disparate disciplines such as mathematics, psychology, and philosophy. Game theory was invented by John von Neumann and Oskar...

How Game Theory Strategy Improves Decision Making

Game theory is the

Access Free Games

study of mathematical models of strategic interaction among rational decision-makers. It has applications in all fields of social science, as well as in logic, systems science and computer science. Originally, it addressed zero-sum games, in which each participant's gains or losses are exactly

Access Free Games

balanced by those of the other participants.

Game theory - Wikipedia

Decisions are made by the player in a few pivotal moments that affect different story elements and tactics for infiltration or confrontation.

Additionally, one decision is made at the

Access Free Games

end of the game that determines the conclusion. The decision-based elements aren't as extensive as other games, however, they are pivotal to the overall experience.
