Service GE Energy provides a complete set of services to support the entire gas turbine product line. We offer an extensive portfolio of proactive and interactive service products such as condition-based maintenance and long term service agreements complementing the traditional service offerings of OEM spare parts, repairs, and field services.

GE GAS TURBINE MANUAL Pdf Download | ManualsLib
This model featured various improvements, including modified rotor blades and the adoption of more powerful T58-GE-10 turboshaft engines, rated at 1,400 shp (1,040 kW) each. The increased power of these new engines allowed the CH-46D to carry an increased payload, such as up to 25 troops or a maximum of 7,000 pounds (3,180 kg) of cargo.

Boeing Vertol CH-46 Sea Knight - Wikipedia
This amendment supersedes two existing airworthiness directives (AD's), applicable to General Electric Company (GE) T58 and CT58 series turboshaft engines. The current AD's revised the counting method for hours in repetitive heavy-lift (RHL) service and reduced the life limit for rotating components.
