Undergraduates access, high quality training for biologists who wish to learn how to use Geographic Information Systems (GIS) in their research. It is an online counterpart to the popular in-person courses run by GIS In Ecology, and it provides a way to access these courses at a substantially reduced cost, and with no associated travel or accommodation costs, making them much more ...

GIS For Biologists – Providing online training in GIS for ...

The instructions for the practical exercises in GIS for Biologists were written specifically for ArcGIS 10.3 (the current version when the book was published), but they will also work with ArcGIS 10.1 and 10.2, and should work with ArcGIS 10.4 (the latest version - although this has not yet been tested). They will not work with earlier versions of ArcGIS For Desktop, or with ArcPro or ArcGIS Online.
