Knights The Omnibus 1

Omnibus collecting three Grey Knights stories. The setting is the
Warhammer 40.000 universe, and the Grey Knights are Space
Marines that are employed to hunt down daemons. The three
stories follow the main protagonist, Alaric, in a fight to track down
and destroy a daemon, on a quest to stop a daemon on a warp-
infested planet (those who know Warhammer will understand), and
as a captive turned gladiator for Chaos.

The Grey Knights are the greatest of the Astartes and the three books contained in this omnibus do a good job of demonstrating why that is, and how differently they operate from the other Chapters. That said, they take a bit of time to get into - a bit more than books from Abnett.

Armed and armoured with the trappings of the daemonhunter, these stalwart Astartes bring death and destruction to the immortal denizens of the warp.

Dark Adeptus is the second novel of this series and was published in 2006. The book once again features Justicar Alaric, the Grey Knight who banished Garguloth back into the warp in Grey Knights. This time the story goes to Chaeronia, a forge world that has disappeared for a century, only to come out of the warp in the middle of a new system disrupting the planetary alignments.

The Grey Knights are the legendary Chapter 666 - and although nominally a Chapter of the Astartes, they are in the Chamber Militant of the Inquisition. [1a] [1e] Each member of the chapter undergoes a gruelling and torturous selection process, and even once inducted, their harsh training regime is without equal.
