Earwax usually falls out on its own. If it does not and blocks your ear, put 2 to 3 drops of olive or almond oil in your ear twice a day for a few days. Over 2 weeks lumps of earwax should fall out of your ear, especially at night when you're lying down. There's no evidence that ear candles or ear vacuums get rid of earwax.

The main difference is that with RITE hearing aids, the part of the hearing aid that sits behind the ear is smaller and is connected by a thin wire to a speaker placed inside the opening of the ear. RITE hearing aids are less visible than BTE hearing aids and are suitable for most people with hearing loss, but they can be more fiddly to use than BTE hearing aids.

The volume consists of a substantial introduction, providing a geographical and historical outline of the area, an account of the origin of the area, an account of the origin of present-day southwestern speech varieties and a synopsis of their main features. This is followed by texts of three main types: brief selections from 17th to 19th century dialect writers, aimed at depicting characteristics of southwestern speech; longer 20th century texts – verse, dialogue in novels; transcripts from tapes from 1950 onwards of speakers of different ages and social backgrounds. A part of each transcript is also provided in phonetic notation.
