A daughter returns home to the Navajo reservation to retrace her mother's life in a memoir that is both a narrative and an archive of one family's troubled history. "A candid and aching fractured memoir of [Geller's] mother, her family, her Navajo heritage and her own journey to self-discovery and acceptance."—Ms. ONE OF THE BEST BOOKS OF THE YEAR: Esquire, She Reads When Danielle Geller's mother dies of alcohol withdrawal during an attempt to get sober, Geller returns to Florida and finds her mother's life packed into eight suitcases. Most were filled with clothes, except for the last one, which contained diaries, photos, and letters, a few undeveloped disposable cameras, dried sage, jewelry, and the bandana her mother wore on days she skipped a hair wash. Geller, an archivist and a writer, uses these pieces of her mother's life to try and understand her mother's relationship to home, and their shared need to leave it. Geller embarks on a journey where she confronts her family's history and the decisions that she herself had been forced to make while growing up, a journey that will end at her mother's home: the Navajo reservation. Dog Flowers is an arresting, photo-lingual memoir that masterfully weaves together images and text

to examine mothers and mothering, sisters and caretaking, and colonized bodies. Exploring loss and inheritance, beauty and balance, Danielle Geller pays homage to our pasts, traditions, and heritage, to the families we are given and the families we choose.

A pioneering, dazzling satire about a biracial black girl from Philadelphia searching for her Jewish father in New York City Oreo is raised by her maternal grandparents in Philadelphia. Her black mother tours with a theatrical troupe, and her Jewish deadbeat dad disappeared when she was an infant, leaving behind a mysterious note that triggers her quest to find him. What ensues is a playful, modernized parody of the classical odyssey of Theseus with a feminist twist, immersed in seventies pop culture, and mixing standard English, black vernacular, and Yiddish with wisecracking aplomb. Oreo, our young hero, navigates the labyrinth of sound studios and brothels and subway tunnels in Manhattan, seeking to claim her birthright while unwittingly experiencing and triggering a mythic journey of self-discovery like no other.

"A powerful, poetic memoir about what it means to exist as an indigenous woman in America, told in snapshots of the author's encounters with gun violence--for readers of Jesmyn Ward and Terese Marie Mailhot. Toni Jensen grew up in the Midwest around guns: As

a girl, she learned how to shoot birds with her father, a card-carrying member of the NRA. As an adult, she's had guns waved in her face in the fracklands around Standing Rock, and felt their silent threat on the concealed-carry campus where she teaches. And she has always known she is not alone. As a Mâetis woman, she is no stranger to the violence enacted on the bodies of indigenous women, on indigenous land, and the ways it is hidden, ignored, forgotten. In Carry, Jensen maps her personal experience onto the historical, exploring how history is lived in the body and redefining the language we use to speak about violence in America. In the title chapter, Jensen recalls the discrimination she faced in college as a Native American student from her roommate to her faculty adviser. "The Worry Line" explores the gun and gang violence in her neighborhood the year her daughter was born. "At the Workshop" focuses on her graduate school years, during which a classmate repeatedly wrote stories in which he killed thinly veiled versions of her. In "Women in the Fracklands," Jensen takes the reader inside Standing Rock during the Dakota Access pipeline protests, as well as the peril faced by women, in regions overcome by the fracking boom. In prose at once forensic and deeply emotional, Toni Jensen shows herself to be a brave new voice and a fearless witness to her own difficult history--as well as to the violent cultural landscape in which she finds her coordinates

"This memoir's beauty is in its fierce intimacy." --Roy Hoffman, The New York Times Book Review One of Literary Hub's Most Anticipated Books of 2019 From the celebrated editor of This Bridge Called My Back, Cherríe Moraga charts her own coming-of-age alongside her mother's decline, and also tells the larger story of the Mexican American diaspora. *Native Country of the Heart: A Memoir* is, at its core, a mother-daughter story. The mother, Elvira, was hired out as a child, along with her siblings, by their own father to pick cotton in California's Imperial Valley. The daughter, Cherríe Moraga, is a brilliant, pioneering, queer Latina feminist. The story of these two women, and of their people, is woven together in an intimate memoir of critical reflection and deep personal revelation. As a young woman, Elvira left California to work as a cigarette girl in glamorous late-1920s Tijuana, where an ambiguous relationship with a wealthy white man taught her life lessons about power, sex, and opportunity. As Moraga charts her mother's journey—from impressionable young girl to battle-tested matriarch to, later on, an old woman

suffering under the yoke of Alzheimer's—she traces her own self-discovery of her gender-queer body and Lesbian identity, as well as her passion for activism and the history of her pueblo. As her mother's memory fails, Moraga is driven to unearth forgotten remnants of a U.S. Mexican diaspora, its indigenous origins, and an American story of cultural loss. Poetically wrought and filled with insight into intergenerational trauma, *Native Country of the Heart* is a reckoning with white American history and a piercing love letter from a fearless daughter to the mother she will never lose.

“There is more life packed on each page of *Ordinary Girls* than some lives hold in a lifetime.” —Julia Alvarez
In this searing memoir, Jaquira Díaz writes fiercely and eloquently of her challenging girlhood and triumphant coming of age. While growing up in housing projects in Puerto Rico and Miami Beach, Díaz found herself caught between extremes. As her family split apart and her mother battled schizophrenia, she was supported by the love of her friends. As she longed for a family and home, her life was upended by violence. As she celebrated her Puerto Rican culture, she couldn't find support for her burgeoning sexual identity.

From her own struggles with depression and sexual assault to Puerto Rico's history of colonialism, every page of *Ordinary Girls* vibrates with music and lyricism. Díaz writes with raw and refreshing honesty, triumphantly mapping a way out of despair toward love and hope to become her version of the girl she always wanted to be. Reminiscent of Tara Westover's *Educated*, Kiese Laymon's *Heavy*, Mary Karr's *The Liars' Club*, and Terese Marie Mailhot's *Heart Berries*, Jaquira Díaz's memoir provides a vivid portrait of a life lived in (and beyond) the borders of Puerto Rico and its complicated history—and reads as electrically as a novel.

"In her raw, unflinching memoir . . . she tells the impassioned, wrenching story of the mental health crisis within her own family and community . . . A searing cry." —New York Times Book Review The Mohawk phrase for depression can be roughly translated to "a mind spread out on the ground." In this urgent and visceral work, Alicia Elliott explores how apt a description that is for the ongoing effects of personal, intergenerational, and colonial traumas she and so many Native people have experienced. Elliott's deeply personal writing details a life spent between Indigenous and white communities, a divide reflected in her own family, and engages with such wide-ranging topics as race, parenthood, love, art, mental illness, poverty, sexual assault,
