Dash Board Warning Lights Hino 700 - Joomlaxe.com

Why are the warning lights different colours? Dashboard warning lights are colour coded to distinguish their level of importance. Typically green, amber and red are used. Red dashboard warning lights: As humans, we associate red with danger so when a light comes up on the dash which is bright red it means it's pretty serious. You need to stop the car as soon as it's safe and seek assistance.

Dashboard Warning Lights And What They Mean | MicksGarage

If you start to notice problems with acceleration and power, rough idling sensations, or a check engine light, these might be warning signs that your EGR valve might be faulty. The most telling of all is a rough time accelerating and getting up to your desired speed, as the valve is directly related to your engine's cylinders firing.
