Most students struggle with learning how to find references, use them effectively, and cite them appropriately in a required format.

One of the most common formats is that of APA. The authors all teach at the same university, where their current off-the-shelf reference book, while helpful, is filled with a

Deep learning is a form of machine learning that enables computers to learn from experience and understand the world in terms of a hierarchy of concepts. Because the computer gathers knowledge from

experience, there is no need for a human computer operator to formally specify all the knowledge that the computer needs. The hierarchy of concepts allows the computer to learn complicated concepts by building them out of simpler ones; a graph of these hierarchies would be many layers deep. This book introduces a broad range of topics in
