This manual contains complete answers and worked-out solutions to all questions and problems that appear in the textbook.

This student resource, prepared by Bruce Chase of the University of Nebraska, contains chapter outlines of text material, key terms, detailed solutions to all end-of-chapter problems, suggestions for analytical approaches, problem-solving strategies, and 1,000 additional questions for practice and review. Also featured are questions that relate to chapter specific animations and iActivities found on the Genetics Place Website.

For all introductory genetics courses Informed by many years of genetics teaching and research expertise, authors Mark Sanders and John Bowman use an integrated approach that helps contextualize three core challenges of learning genetics: solving problems, understanding evolution, and understanding the connection between traditional genetics models and more modern approaches.

Genetic Analysis: An Integrated Approach, 2/e is extensively updated with relevant, cutting-edge coverage of modern genetics and is supported by MasteringGenetics, the most widely-used homework and assessment program in genetics. Featuring expanded assignment options, MasteringGenetics complements the book ' s problem-solving approach, engages students, and improves results by helping them master concepts and problem-solving skills. MasteringGenetics is not included. Students, if MasteringGenetics is a recommended/mandatory component of the course, please ask your instructor for the correct ISBN and course ID. MasteringGenetics should only be purchased when required by an instructor. Instructors, contact your Pearson representative for more information. MasteringGenetics is an online homework, tutorial, and assessment program designed to work with this text to engage students and improve results. Interactive, self-paced tutorials provide individualized coaching to help students stay on track. With a wide range of activities available, students can actively learn, understand, and retain even the most difficult concepts.
